Introduction to College

Skyline College

Skyline College is one of three comprehensive community colleges within the San Mateo County Community College District. The District also includes Cañada College in Redwood City, and the College of San Mateo.

Opened in 1969, Skyline College is located just south of San Francisco in San Bruno on a site overlooking the Pacific Ocean. The College serves a diverse population, drawing a wide ethnic and socio-economic range of local and international students to its dynamic campus.

Skyline College is committed to developing culturally rich and globally informed educational opportunities for an annual population of over 16,000 students.

Students can choose from more than 100 degree and certificate programs to achieve their educational goals in an affordable and supportive environment. Key transfer agreements set with a wide range of public and private colleges including UC Berkeley, UCLA, UC Davis and San Francisco State University make Skyline College a top destination for students hoping to transfer to a four-year college or university.

Skyline College is also committed to preparing a highly skilled workforce and has been recognized nationally for its efforts. Through strategic partnerships with local high schools, community organizations and industry partners, Skyline College offers comprehensive career education, supporting students from high school to adult learners looking to attain a degree and enter the workforce, advance their skills, and prepare for upwardly mobile careers.

Our College mission to empower and transform a global community of learners informs our campus-wide “Call to Consciousness” that highlights the value of examining everything we do through the lens of social justice, both as educators and as students. Educators at Skyline College are committed to a culture of inquiry and innovation that continually surfaces new ways of enhancing academic excellence through campus diversity and equity.

President's Message

As the new President of Skyline College, you can imagine the excitement I feel getting to know you - the students, faculty, classified professionals, administrators, and community. I feel like a freshman student - everything is new and unfamiliar, and yet there is a marvelous anticipation of all that is yet to be discovered! At the same time, I am deeply humbled and privileged to have been chosen as your new President, and I step into this role with profound gratitude for the work of my predecessors.

I want to honor and recognize the incredible work of Dr. Jannett Jackson. She accomplished so much in this past year to address some critical objectives: greater transparency, examination of our participatory governance process, investment in professional development, a commitment to our comprehensive redesign, and the successful completion of the accreditation process.

Let me assure you, my support of these and other active initiatives will continue, and I want to thank those of you who have participated and contributed in furthering these goals during this past year.

I have spent a very busy month of July visiting with my executive team, meeting classified leadership and faculty leadership, getting to know Chancellor Claire and his cabinet, meeting the Board of Trustees, and relocating from Santa Barbara to the Bay Area! This is a remarkable college community, rich with opportunity and talent, which means you made the absolute right decision to join the Skyline College family – whether you are a student or employee. Every person I have met at Skyline College is incredibly knowledgeable with prodigious expertise, dedicated, has a strong work ethic and a passion to focus on students, to help, to serve, and elevate student success. What an amazing college!

I bring to Skyline College a vision to ignite a spirit of authentic collaboration. While we center everything we do around a "students first" philosophy, I intend to unite us in building a much sturdier foundation of trust and lasting relationships, so that we can work better together, and free ourselves to truly empower and transform students, and allow us to focus more keenly on our key initiatives to bring about student success.

I share Skyline College's core values and goals, and this year, bring a focus on listening from the heart, caring for others, and an emphasis on connecting with each other given the challenges we face today.

This year, we embark on a new chapter, as we come off the heels of our 50th Anniversary, and enter our second half century with the enormous and unprecedented challenge of a pandemic. We will be shaped, in part, by this health crisis, and learn lessons we never imagined. This "new normal" of remote interaction wears thin at times, I know. We need to press on regardless and lift each other up when we feel discouraged. The occasional live, yet virtual, interaction is important to feel and stay connected. We would be lost without virtual meetings, so hang in there!

We will continue to address the deep injustices facing our communities of color, and have made staunch commitments and taken firm action to dismantle racism in our college structures and practices, to ensure that our black students and colleagues can be safe at Skyline College, and pursue their college and career dreams. Skyline College uniquely sets the example in our District, in the State, and across the nation, with its innovative and disruptive approaches to inculcate anti-racist practices in everything we do. We are so proud of this resilient determination and join you in this effort with humility. I commit to you, as a strong ally, to use my position of power and privilege to support anti-racist actions and changes across our structures and classrooms, as we continue the work to reach our most minoritized students, and lift barriers to their success.

I am looking forward to the year before us, and have observed a few key areas in need of focus this year:

1. We will be working to build trust and caring relationships across the college. I have spoken to so many who feel trust has been lost, and yet everyone is fully on board to work on this and support this effort;
2. We will continue the work already started to create a stronger commitment to transparency and shared decision-making. I think of participatory governance as a way to hear and consider all voices before major college decisions are made. We don't have to agree necessarily, but we all want to be heard and feel our point of view has been genuinely considered. We will infuse participatory governance into our decision-making practices across the college.
3. Finally, we will continue to dismantle institutional practices that interrupt our anti-racism efforts. We will continue to examine our hiring practices, our curriculum, our pedagogies, our meeting practices, and seek to change how we do business and teach in the classroom, to ensure we stay true to our commitment to be an anti-racist institution. We will also continue our practice of offering caring spaces to our communities of color who continue to be harmed by current events. We will integrate allyship training to develop a daily practice of de-centering the privileged voice and amplify the voices of the oppressed.
Because this pandemic is so persistent, look for a series of virtual meet and greet opportunities with me throughout the fall semester. I want us to get to know each other, even if through a screen.

I hope you all have a successful semester, despite these trying times. And, in the spirit of authentic collaboration, I am here to support you, serve you, and work with you throughout the year.

**Statement On Academic Freedom**

Per Board Policy 6.35, Skyline College and the San Mateo County Community College District are dedicated to maintaining a climate of academic freedom encouraging the sharing and cultivation of a wide variety of viewpoints. Academic freedom expresses our belief in inquiry, informed debate and the search for truth; academic freedom is necessary in order to provide students with a variety of ideas, to encourage them to engage in critical thinking and to help them understand conflicting opinions.

Academic freedom encompasses the freedom to study, teach, and express ideas, including unpopular or controversial ones, without censorship or political restraint. Academic freedom, rather than being a license to do or say whatever one wishes, requires professional competence, open inquiry and rigorous attention to the pursuit of truth.
The District’s faculty have the right to express their informed opinions which relate, directly or indirectly, to their professional activities, whether these opinions are expressed in the classroom, elsewhere on campus or at college-related functions. In a search for truth and in a context of reasoned academic debate, students also have the right to express their opinions and to question those presented by others.

Employment by the District does not in any way restrict or limit the rights enjoyed by faculty under the California and United States Constitutions. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

Protecting academic freedom is the responsibility of the college community. Therefore, in a climate of openness and mutual respect, free from distortion and doctrinal obligation, the District protects and encourages the exchange of ideas, including unpopular ones, which are presented in a spirit of free and open dialogue and constructive debate.

Assessment And Placement Test

Assessment/Placement Test is about finding your starting point in college. If you plan to earn a degree or certificate, transfer to a four-year institution, or take a Math or English course, you may need to assess your skill level before you register for classes.

To maximize the probability that students will enter and complete transfer-level coursework in Math and English within a one-year timeframe. Assembly Bill (AB) 705 gives students the right to access and enroll into the first transfer-level or first transfer-level with co-requisite support courses in Math and English. To qualify, students MUST have at least three years at a regionally accredited United States high school and have graduated within the last 10 years.

Skyline College offers students multiple measures assessment as described below to determine your appropriate English/ESOL and Math course recommendations. Depending upon your student type will determine your next step for assessment.

Automated Placement at Skyline College

Skyline College uses the following measures collected through CCCApply to provide a preliminary Math and English course recommendation:

- High school grade point average (GPA)
- High school coursework
- High school grades
- Intended program of study

Submitting High School Information for Placement

If your high school transcript contains only partial information that you entered during your application, automation of your placement may not occur. You may submit an English/Math Assessment Request online. If available, please attach your high school transcript, AP score report, and/or other college transcripts (unofficial accepted) with your online submission to maximize the placement and prerequisite evaluation clearances. Please note, transcripts may be requested for verification purposes for processing.

Guided Self-Assessment

Students have the option to complete a self-guided assessment for placement into an English, English Speakers of Other Languages, or Math course. The self-guided assessment allows students to place into transfer-level English and/or Math, and it may be with the recommendation to take the course with or without co-requisite support.

Placement Test

The purpose of the placement test is to understand which course level may be appropriate for you. All students have the option to take the placement test. Your test results will assist you and your counselor to select appropriate classes. For instructions on how to sign-up to take the placement test, please visit the Assessment Center website.

Retest Policy

1. English/ESOL and Math placement results, for the purpose of course placement and prerequisite skill level assessment, do not expire and remain valid indefinitely. If however, a significant amount of time has passed since the English or ESOL test was completed, a student may elect to repeat the placement test to secure an accurate assessment of current skill level.

2. If a student does not accept the recommended placement, he/she may retake the same placement test two additional times within a one-year period.

3. A student who has completed a course in the English, ESOL or math sequence may take the placement test to determine his/her current competency level in English, ESOL and math courses, if two years have elapsed since the course was completed.

4. For any other special circumstance, or with an instructor or counselor recommendation, a student may petition to retest through the Dean of Counseling.

Retrieving Placement Results

Placement results, regardless of assessment method (automated placement, guided-self assessment, placement testing, or exemptions), will be available to students via WebSMART. Please go to https://websmart.smccd.edu. Click on the following (1) Student Services (2) Student Records (3) Placement Test Results.

Placement Exemptions

Students may be eligible for English and Math course placement based on other assessment measures, such as having prior English/math district placement results, or completion of college-level English/math from an outside institution, or using alternate placement exams.
1. **PREVIOUS PLACEMENT TESTS**
   If a student has taken the placement test in English or ESL and/or Math at Cañada College, Skyline College, or the College of San Mateo and test results are available for review, they may be exempt from being re-assessed. A student should review with a Skyline College Counselor the previous placement and discuss course options. If it is determined a student needs an updated placement in English, ESOL, and/or Math, the counselor will guide the student toward assessment options.

2. **PREREQUISITE EQUIVALENCY**
   If a student has completed course work in English or ESOL and/or mathematics with a grade of "C" or better at a regionally accredited college or university in the United States, they may complete a course prerequisite equivalency form. Supporting documents, such as an unofficial copy of the college transcript will be required.

3. **ALTERNATE PLACEMENTS USING EXAMS**

**Registration**

Registration is conducted through WebSMART to enroll in classes, add and/or drop classes, access final grades, and pay college fees.

Students who have been continuously enrolled will receive an appointment to register each semester by email. Registration can be done on or after the registration appointment date. Fees are due at the time of registration. You may pay fees online by credit card or in person by credit card, cash, personal check or money order.

New students who intend to earn an Associate degree, transfer to a four-year college or university, earn a certificate from a vocational program, discover career interests/prepare for a new career, improve basic skills in English, reading or math, and those students who are undecided about their goal are expected to complete enrollment requirements.

New students who wish to take courses for personal enrichment, improve present job skills, satisfy requirements for another educational institution, or who have already earned an Associate or higher degree may utilize enrollment services but are not required to do so.
Registration Limitations

1. A student may take no more than 19 units in Fall and Spring semesters or 11 units in Summer Session without the special approval of a counselor, the Dean of Counseling, or the Dean of Enrollment Services. This unit limitation is inclusive of all courses in the day, evening, or weekend program, or at another college or university.

A program of 12 units or more is considered full-time in establishing eligibility for athletics, financial aid, International Student visas, Veterans benefits, and most other benefits which are dependent upon full-time enrollment status for maximum benefits. Some financial assistance programs pro-rate benefits based on a reduced unit load. Students should check with their program coordinator for specific unit requirements.

Enrollment status is defined as follows: Full-time = 12+ units; three-quarter time = 9-11 units; half-time = 6-8 units; and less than half-time = .5-5.5 units.

2. A student may enroll in two sections of the same course during the same term only if one section ends before the other begins.

3. A student is not permitted to enroll in two or more different courses when the meeting times for the courses overlap. A petition may be made for extenuating circumstances. Forms are available online at skylinecollege.edu/counseling/forms.php.

4. A student will not be permitted to register in a course if three (3) attempts have been recorded for the same course. See “Course Repetition” under the Academic Standards section of this Catalog.

Choice Of College

Residents of the District may elect to attend Skyline College, College of San Mateo or Cañada College. In the event the capacity of a class or classes at one college is reached, students may be advised to enroll at one of the other colleges. Academic major and date of application will be considered if such diversion becomes necessary.

Registration Changes/Withdrawal

Prior to the beginning of the semester or summer session and throughout the Late Registration period, schedule changes are completed using WebSMART.

All schedule changes are the responsibility of the student. A student who is registered in a course and stops attending will not be automatically withdrawn and may receive a penalty grade. It is the student’s responsibility to officially withdraw following prescribed procedures and timelines as published in the Class Schedule, on the Class Schedule Summary on WebSMART, or by looking at course information on the Web Schedule. Refer to Withdrawal from Classes for complete details on withdrawal procedures. Refer to Refund Policy for information on refunds.

Registration Priority

Priority Registration applies to specific groups of students, as identified by the California State Chancellor’s Office and the San Mateo County Community College District.

Priority status allows for early registration and is based on rules that apply the following criteria:

- Current Student Educational Plan (SEP) that is valid through the anticipated registration term(s)
- Completion of the Student Success and Support Program (if required), including Orientation, assessment and Counseling
- Academic Standing - Must be in good Academic Standing for two consecutive terms
- Units earned – Must have earned less than 100 Degree Applicable units

Rules apply to all priority groups, with the exception of Foster Youth.

Once criteria is met by the student, their registration status is determined and the appropriate registration date is assigned. Registration dates can be viewed on WebSMART, during the registration cycle of a term. Students who previously qualified for priority registration and/or the BOG Fee Waiver, but lost priority due to an Extenuating Circumstance, may file an appeal form with the Admissions and Records Office.

Remedial Coursework Limit

Remedial basic skills coursework is limited to 30 semester units of credit. Any student who can show significant progress toward the development of skills appropriate to his/her college enrollment may request a waiver of this limitation. Students enrolled in ESL courses or those with learning disabilities are exempt from this limitation.

First Class Meeting Attendance

Students who register for a class but do not attend the first class meeting may be replaced by other students. It is the student’s responsibility to notify the instructor of delayed attendance or officially withdraw following established procedures and timelines published in the Class Schedule.

Auditing Of Courses

Skyline College allows auditing of courses, with the exception of courses in programs that require special preparation and/or program admission on a limited basis. A student may audit a course only under the following circumstances:
1. The student must have previously enrolled for credit for the maximum number of times allowed for the particular course.
2. The instructor of record for the course must approve the student’s enrollment as an auditor.
3. The student must be in good academic standing.
4. If the course is offered for variable units, the student must enroll for the maximum number of units available.
5. The student must enroll as an auditor immediately following the published late registration period and pay the auditing fee.

Students who enroll in a course for credit have first priority for all classroom space. Students who wish to audit a course may enroll the week after the late registration period is concluded, though with the instructor’s permission they are able to attend the course from the first class meeting. Students who wish to audit a course must obtain a COURSE AUDIT FORM available at skylinecollege.edu/counseling/forms.php. No student auditing a course shall be permitted to change his or her enrollment to receive credit for the course. An auditing fee, as established by California Education Code, is payable at the time of enrollment as an auditor, with the exception of students enrolled in ten (10) or more semester credit units.

**Variable Unit Courses**

Some courses are offered for variable units that are earned according to the amount of subject matter the student completes during the length of the course. When registering for a variable unit course, students should enroll in the number of units they plan to complete. Units may be adjusted using WebSMART registration. There will be no refunds for units not earned. Students earning additional units will be charged accordingly.

**Open Classes**

It is the policy of this District that, unless specifically exempted by statute, every course, course section or class shall be fully open to enrollment and participation by any person who has been admitted to the college(s) and who meets the prerequisites of the course, provided space is available. The policy is established pursuant to Chapter 11, Division 2, Part VI of Title 5 of the California Administrative Code, commencing with Section 51820. Enrollment may be limited in some courses due to space and equipment constraints.

In addition, it includes a “what if” tool that allows students to view their progress toward the full range of our San Mateo Country Community District educational goals. *DegreeWorks* includes information about progress toward educational goals, academic history, a GPA calculator, and an Ed Plan (Student Educational Plan – SEP). Students can work with a counselor who will complete an SEP that is stored in *DegreeWorks* for an important academic planning resource for students. Students are encouraged to review *DegreeWorks* information and work with a counselor to engage in academic and career planning.

**Enrollment/Degree Verification**

Verification may be accessed and printed as a free service to students. Access Enrollment/Degree Verifications from the Student Records Menu on WebSMART.

**Transcripts**

A transcript is an official record of a student’s academic work at Cañada College, the College of San Mateo and Skyline College. A single transcript will contain a student’s work from all three colleges in the San Mateo County Community College District (SMCCCD). You will need to only request one transcript if you attended multiple colleges in this District.

SMCCCD has enlisted the help of Credentials Solutions to manage student records. Credentials Solutions will now provide transcript order, printing, and delivery service. Their “TranscriptPlus” feature will allow you to request transcripts at any time, on any day of the week.

On behalf of SMCCCD, Credentials Solutions will have the authority to fulfill all electronic transcript requests and respond to related inquires. All PDF transcripts produced through the electronic transcript process are identical to paper transcripts. These PDFs can be certified as unaltered by visiting the website provided during the delivery process.

- Students are initially entitled to two free transcripts, thereafter, transcripts are $5 each.
- Most transcript requests are processed within one business day. Transcript request will not be processed if there is a financial or other type of hold on your account.
- Transcripts are sent electronically or mailed using U.S. first class mail.
- Log in to your WEBSMART student account at websmart.smccd.edu
- Select Student Records, then Request Unofficial Transcript.
- Verify or enter your email address and select continue.

Additional information regarding Transcripts can be found at skylinecollege.edu.

**Dual Enrollment**

The Strategic Partnerships and Workforce Development Division at Skyline College leads extensive partnership work across San Mateo County to develop innovative Dual Enrollment Programming for high school students. Skyline College’s Dual Enrollment Program focuses on providing high school students who may not already be college bound or who are underrepresented in higher education the opportunity to earn high school and college level credit at no financial cost to them.

The goals of the program include creating high quality engagement that develops seamless pathways from high school to community college for career technical education or preparation for transfer to four-year universities, improving high school graduation rates and assisting high school students to achieve college and career readiness.

Dual enrollment courses are currently available to students at Jefferson Union High School District, South San Francisco Unified High School District, San Mateo High School District and Sequoia Union High School District. Stop by your high school counselor to learn more about enrolling in one of our partnership courses.

For more information regarding our dual enrollment program please email Andrea Vizenor, Dean of Strategic Partnerships and Workforce Development at vizenora@smccd.edu.

**Orientation**

New students attend Orientation after completing their application. Orientation is offered both in-person and online. The procedure to sign up for either Orientation option is detailed on Skyline College’s website. Both orientations cover important college policies and procedures, specific information about certificate, degree and transfer goals, and useful resources that help students be successful in achieving their goals.
For more information, please visit the Orientation website or contact the Counseling Department at (650) 738-4318 or sky counseling@smccd.edu.
Fees / Refunds

Student Fees

The fees listed in this Catalog are those in effect at the time of publication. **Fees are subject to change at any time by action of Federal or State statute, the Board of Governors of the California Community Colleges, or the San Mateo County Community College District Board of Trustees.** A list of fees is published in each semester’s Class Schedule and is available on WebSMART.

All fees marked with an “**” are waived for Concurrent High School Students enrolled in less than 11.5 units.

Estimated fees paid by the student may be claimed for a tax credit. A 1098-T will be available on WebSMART in January for the prior year’s tax information.

Enrollment Fee*

A state-mandated enrollment fee of $46 per unit is payable by all students. The enrollment fee is calculated each semester based upon the student’s combined enrollments at Skyline College, Cañada College, and/or the College of San Mateo.

The Board of Governors of the California Community Colleges has established the California College Promise Grant (CCPG) to help students pay the enrollment fee. Information on eligibility requirements, application deadlines, and application forms are available on WebSMART under “Financial Aid”. Students classified as nonresidents of the State of California must pay an additional non resident fee. See details under “Nonresident Tuition Fee.”

Enrollment Fee - Bachelor of Science in Respiratory Care*

All Students that are new graduates and have completed a CoARC accredited Respiratory Care program equivalent to an A.S. in Respiratory Care and are California licensure eligible or Respiratory Care Practitioners who have completed a CoArc accredited Respiratory Care program equivalent to an A.S. in Respiratory Care and are California licensure eligible and accepted into the Bachelor of Science Respiratory Care program at Skyline College will pay $130 per unit for upper division coursework. Students eligible for the California College Promise Grant (CCPG) will only waive $46 per unit and total cost to the student is $84 per unit.

Health Services Fee*

All students, except those enrolled ONLY in off-campus, weekend or Distance Learning courses, are required to pay $21 for each Fall & Spring semester and $18 for Summer session. This fee provides campus health services and medical coverage for injuries incurred while the student is on campus or attending an off-campus, College-sponsored event.

Students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination or organization may be exempted from paying the Health Services Fee. A petition for a Health Services Fee exemption may be obtained from the Admissions & Records Office. The fee is not covered by the California College Promise Grant (CCPG) and is not refundable unless an action of the college prevents the student from attending.

Student Representation Fee*

Assembly Bill (AB) 1504, approved by the Governor October 4, 2019, amended Section 76060.5 of the Education Code to require a community college to collect a student representation fee of $2 at the time of registration. One dollar ($1) of every two-dollar ($2) fee collected shall be expended to support the Student Senate of the California Community Colleges (SSCCC), the statewide community college student organization recognized by the Board of Governors (BOG) of the California Community Colleges. The legislation is effective January 1, 2020.

AB 1504 also amends prior language regarding a student’s choice to opt-out of the fee. Students may fill out a petition to waive the fee. The fee is not covered by the California College Promise Grant (CCPG) and is not refundable unless an action of the college prevents the student from attending.

Non-Resident Tuition Fee

Students who do not qualify as California residents as determined by the California Education Code must pay Non-resident Tuition fees. Refer to the current Class Schedule or the Fees link on the Skyline College website for the current fee rate. The Office of Admissions and Records determines residency status at the time of admission. Refer to “Determination of Residency” in the Admission section of this Catalog for more information.

International (F-1 Visa) students pay the Non-resident Tuition, a nominal capital outlay fee, and the Enrollment fees.

International Student (F-1 Visa) Health Insurance

Required of international students without the required level of private health insurance.
Student Body Fee (Optional)*
All students, except for students enrolled ONLY in off-campus, weekend or Distance Learning courses, are assessed the Student Body Fee. The Student Body Fee of $15 per semester (Fall & Spring only) is automatically assessed and is payable at the time of registration. Students who pay the fee receive an Associated Student Body card which entitles them to special discounts at local businesses, movie theaters, shops, restaurants, and for some on-campus products and services. All fees must be paid in full to receive a student ID. Funds collected also help support student clubs, events, services and scholarships. Students who choose to waive the fee must contact The Center for Student Life and Leadership Development Office by the deadline listed in the Class Schedule printed each semester. The fee is not covered by the California College Promise Grant (CCPG) and is not refundable unless an action of the college prevents the student from attending.

Student Union Fee*
Students will be assessed a Student Union Fee of $1 per unit up to a maximum of $5 per semester (Fall and Spring only). Funds collected will be used to support the operation, maintenance and refurbishment of the Student Union. The assessment of this fee was authorized by a vote of the Skyline College Student Body in February 2001. The fee is not covered by the California College Promise Grant (CCPG) and is not refundable unless an action of the college prevents the student from attending.

Parking Permit Fee
Skyline College is committed to keeping the campus as accessible as possible to the community. The Public Safety Office applies strict and fair application of all parking regulations. All persons driving an automobile, truck or van who utilize campus parking facilities during scheduled class hours and final examination periods are required to pay a parking permit fee. Motorcycles are excluded from this requirement if parked in designated motorcycle parking. Students enrolled exclusively in weekend or off-campus classes are exempt.

Parking options are as follows:
• $58 for each semester (Fall or Spring)
• $106 for a Two-Term Permit (Fall and Spring)
• $29 for the Summer Session
• $3 for one day parking permits available at daily permit dispensers in Parking Lots C, F, L1, L2, N (adjacent to the perimeter road) and P. Refer to the campus map for dispenser locations.
• Parking fees are nonrefundable unless an action of the College (e.g., cancellation of all of the student’s classes) prevents the student from attending.

There are NO refunds for lost, stolen or damaged permits. Replacement of any lost or stolen permit is at full cost to the student.
• Parking permits may be transferred from one vehicle to another.

Disabled Student Parking
Physically disabled students who drive vehicles to campus must have a valid state-issued DMV placard or license plate. For these students, no parking permit is required. Disabled parking is available in student or staff lots. For further information, contact the Educational Access Center at (650) 738-4280.

Audit Fee
The College allows auditing of courses with the exception of courses in programs that require special preparation and/or program admission on a limited basis. Students requesting to Audit a course and receive the California College Promise Grant (CCPG) are responsible to pay for fees and the CCPG will not be applied to the student account.

Transcript Fee
An official transcript summarizing a student’s complete academic record of course work taken at Cañada College, College of San Mateo, and Skyline College will be sent directly to colleges, employers, and other agencies upon request by the student. Transcripts should be requested through WebSMART. Transcripts from high schools and other colleges will not be forwarded. The first two transcripts requested are free. There is a $5 fee for each transcript requested after the first two. For additional information, contact the Transcript Department in the Office of Admissions and Records at (650) 738-4255.

Students must purchase their own textbooks and supplies. Considerable savings are possible by renting or purchasing used textbooks from the Skyline College Bookstore. For the approximate cost of books, contact the Bookstore at (650) 738-4212 or check the website at http://bookstore.skylinecollege.edu.

Some courses require special equipment or materials fees at the student’s expense:
• Accounting, Art, Automotive Technology, Business, Computer Applications & Office Technology, Computer Science, Development Skills, Math, Respiratory Therapy, Wellness – $2 to $380 materials fee is required for certain courses.
• Automotive Technology – Approximately $900 for Basic Tools
• Cosmetology or Esthetician – Approximately $1,900 over the length of the program for uniforms and equipment

Payment of Fees
Fees may be paid in any of the following ways:

• WebSMART: Mastercard, Visa, Discover or American Express
• In Person at Cashier’s Office (Student Services Center, Bldg. 2, 2nd Floor): Cash, Check, Money Order or Credit Card

Fees are due and payable at the time of registration. Student records are automatically held until all debts to the District colleges have been cleared. Students are not able to register for classes if there’s an outstanding balance on the account. Students are expected to review their account on WebSMART regularly. Outstanding student account balances are subject to referral to a collection agency.

Refund Policy For Registration Fees

Eligibility
• To be eligible for a credit or refund, a student must officially withdraw from a course within the stated deadline as displayed on WebSMART Class Schedule Summary for exact refund dates. If registration occurs after the refund date for a class, no refund will be available.
• For summer or short courses, withdrawal must occur within the first 10% of the course (often this the first day).
• If a student decides not to attend classes, it is their responsibility to officially withdraw within published deadlines to avoid penalty grades and fee obligations. A withdrawal initiated by a professor may not result in a refund.

Issuance & Balances
• A student may either maintain a credit balance on account or request a refund.
• Refunds are not issued automatically. Students must contact the Cashier’s Office at (650) 738-4101 to request a refund.
• Credit balances remain on student accounts for a maximum of five (5) years.

Processing
• Fees paid by personal check(s) require 10 business days for bank clearance before refunds can be processed.
• A $10 non-refundable processing fee (plus an additional $50 processing fee for nonresident tuition) will be retained by the College if a refund is issued to a student withdrawing from all classes. A refund processing fee may be charged only once per semester or summer session. For students who owe less than $10 and withdraw from all classes before the deadline, the processing fee shall equal to the amount owed.

Financial Aid Refunds
• Students who receive financial aid and withdraw from classes are advised to call the Financial Aid Office at (650) 738-4236 regarding possible repayment of federal funds if received prior to withdrawal.

Refunds Due to Action of College
• Fees will be credited or refunded if an action of the College (e.g. class cancellation) prevents a student from attending.

Other Registration, Refund & Waiver
• The Student Body Fee is fully refundable by the deadline stated on the Class Schedule printed each semester. For short courses or for late-start courses, the deadline to waive the fee is 10% of the period of instruction (often this is the first day).
• Variable Unit Courses: No enrollment fee or nonresident/international student tuition refund or credit will be available to students enrolled in variable unit courses who earn fewer unit of credit than the number for which they originally registered. Students earning additional units will be charged accordingly.
• Exceptions to the refund policy may be authorized by petition to the Extenuating Circumstances Committee in cases of unique and extraordinary circumstances beyond the control of the student.
Grades & Honors

Grades and Grade Points
Courses within the SMCCD are graded by means of the grading system established by the California Education Code (Title V). Skyline College utilizes two types of grading methods or grade modes: Letter Grade and Pass/No Pass.

Letter Grade
Grades are averaged on the basis of the point equivalencies to determine a student's grade point average. The highest grade shall receive 4 points and the lowest grades shall receive 0 points using the following evaluative symbols:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.0 points</td>
</tr>
<tr>
<td>A-</td>
<td>Excellent</td>
<td>3.7 points</td>
</tr>
<tr>
<td>B+</td>
<td>Good</td>
<td>3.3 points</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0 points</td>
</tr>
<tr>
<td>B-</td>
<td>Good</td>
<td>2.7 points</td>
</tr>
<tr>
<td>C+</td>
<td>Satisfactory</td>
<td>2.3 points</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2.0 points</td>
</tr>
<tr>
<td>D+</td>
<td>Passing, less than satisfactory</td>
<td>1.3 points</td>
</tr>
<tr>
<td>D</td>
<td>Passing, less than satisfactory</td>
<td>1.0 points</td>
</tr>
<tr>
<td>D-</td>
<td>Passing, less than satisfactory</td>
<td>0.7 points</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0 points</td>
</tr>
</tbody>
</table>

Pass/No Pass
Each division of the College may designate course(s) in which a student is evaluated on a Pass/No Pass basis only. There are no grade points assigned to this grade mode, as units are not calculated towards GPA. Evaluative symbols are as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>P</td>
<td>Pass (satisfactory – C or better)</td>
<td>0 points</td>
</tr>
<tr>
<td>NP</td>
<td>No Pass (less than satisfactory or failing)</td>
<td>0 points</td>
</tr>
</tbody>
</table>

Grade Mode Option
Some courses offer both Letter Grade and Pass/No Pass grade mode options. Grade mode options allow students to explore various fields of study and broaden their knowledge, particularly outside their major field, without jeopardizing their grade point average. Courses in which such an option exists will be designated by the Division Dean in consultation with appropriate members of the division faculty.

Students selecting a Pass/No Pass option must select this grade mode at the time of registration or one day prior to Census, through their WebSMART account.

The use of courses graded on a Pass/No Pass basis to satisfy major or certificate requirements must be approved by the Division Dean in consultation with appropriate members of the division faculty. A maximum of 12 units toward an Associate Degree, or 6 units toward a Certificate, may be applied from courses in which the student has elected a Pass/No Pass option.

Important: Four year colleges and universities vary widely in the number of units of Pass/No Pass courses they will accept. Students should consult the catalog of the college to which they plan to transfer for its regulations before selecting this option.

Non-evaluative Symbols
I - Incomplete
Appears in the grade column, along with a default grade, and indicates incomplete academic work for unforeseeable, emergency, and justifiable reasons. Conditions for the removal of the "Incomplete" shall be set forth by the faculty member in a written record which also indicates the default grade (grade assigned in lieu of removal). A final grade will be assigned by the faculty member when the stipulated work has been completed and evaluated. In the event that the work is not completed within the prescribed time period, the default grade previously determined by the faculty member will be entered in the permanent record. The Incomplete must be made up no later than one year following the end of the term in which it was assigned. Established College procedures may be utilized to request a time extension in cases involving unusual circumstances. The I symbol is not used in calculating units attempted nor for grade points.

IP - In Progress
The IP symbol indicates courses which extend beyond the normal end of an academic term. It indicates that work is In Progress, but that assignment of the evaluative symbol (grade) must wait its completion. The IP symbol shall remain on the student's permanent record in order to satisfy
enrollment documentation. The appropriate evaluative symbol (grade) and unit credit shall be assigned and appear on the students permanent record for the term in which the course is completed.

**RD - Report Delayed**
The RD symbol indicates that there has been a delay in reporting the grade due to circumstances beyond the student's control. It is to be replaced by a permanent symbol as soon as possible. The RD shall not be used in the calculation of grade point average.

**W - Withdrawal**
The W symbol indicates withdrawal from a course beyond the last day to drop without a notation appearing on the student record.

**MW - Military Withdrawal**
The MW symbol indicates military withdrawal.

**# - Non-degree Applicable**
Appears with a grade and indicates a non-degree applicable course.

**EW - Excused Withdrawal**
An "Excused Withdrawal" will be authorized when a student withdraws from a course(s) for reasons beyond their control. A student may request to use an "EW" for only one course or all courses in a term depending on the reason for the request. In accordance to Title 5, section 55024(e), an EW symbol may be requested by the student any time during the semester and no later than one year following the end of the term in which the EW symbol is requested in accordance with the District grade change policy. Upon verification of the extenuating circumstance, a notation of "EW" will be placed on the student record. Excused Withdrawals are not counted in the probation or dismissal calculations. In addition, the "Excused Withdrawal" should not be counted towards the permitted number of withdrawals or counted as an enrollment attempt. An EW is acceptable when a student withdraws from a course(s) due to reasons beyond their control, which include but are not limited to, the following:

- Job transfer outside the geographical region
- Illness in the family in which the student is the primary caregiver
- An incarcerated student in a California State Prison or County Jail is released from custody or involuntarily transferred before the end of the term in the case of an incarcerated student, an excused withdrawal cannot be applied if the failure to complete the course(s) was the result of a student's behavioral violation or if the student requested and was granted a mid-semester transfer
- The student is the subject of an immigration action
- Death of an immediate family member
- Chronic or acute illness

The financial aid eligibility of a student may be affected depending on individual circumstance. A student should consult with the financial aid staff regarding any impact.

**E - Excluded**
As a result of procedures such as Grade Alleviation, Academic Renewal and Course Repetition, a notation of E may appear in the right column of the student academic record to indicate that the course is to be Excluded from the GPA calculation.

**I - Included**
As a result of procedures such as Grade Alleviation, Academic Renewal and Course Repetition, a notation of I may appear in the right column of the student academic record to indicate that the course is to be or Included in the GPA calculation.

**GPA (Grade Point Average)**
GPA is determined by dividing the total number of grade points earned by the total number of letter graded (GPA) units attempted (See Academic Standards Policy).

A student’s grade point average for a degree will not include grades earned in non-degree applicable credit courses.

Courses transferred to Skyline College, Credit by Exam, and Advanced Placement are not included in the District GPA.

**Units of Credit**
A "unit" of credit represents attendance for one class hour per week for a total of 16 hours throughout one semester in lecture or recitation, with study/preparation outside of class, or three hours in laboratory or other exercises not requiring homework for preparation per week for a total of 48 hours, or an equivalent combination.

Students planning to complete their Associate degree in two years must enroll in and complete 15-16 units per semester. A schedule of 15 college units assumes that the average student will devote approximately 45 hours per week to class attendance and preparation.

**Grade Options**
Courses will be designated as Letter graded and/or Pass/No Pass. The default for registration when options are offered is a letter grade. Students must select the Pass/No Pass option when registering or within the first 20% of the course. No change can be made in the option after the deadline to change. Be aware of degree and/or transfer requirements when selecting a P/NP option.
Scholastic Honors

Dean's List
A Dean's List of students who have achieved academic honors is published at the end of each semester. The list contains the names of students who previously completed 12 units or more of letter-graded coursework and during the subsequent semester at Cañada College, College of San Mateo, and Skyline College earned a grade point average of 3.3 or above for six or more units.

Honors at Graduation
Recognition of a student's academic excellence will be given at graduation on the basis of their grade point average according to the following scale:

<table>
<thead>
<tr>

<tbody>
<tr>
<td>3.3</td>
<td>Cum Laude</td>
</tr>
<tr>
<td>3.5</td>

<tr>

<td>Summa Cum Laude</td>
</tr>
</tbody>
</table>

Final Grade Reports
Each student is responsible for his/her own academic progress. Final grade reports are not mailed to students but are available on WebSMART. **All fees must be paid to be able to access grades.** Dates of final grade availability for specific semesters are published in the current Class Schedule.

Change of Final Grades
The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. See “Student Grievance and Appeals Policy” in the Student Records, Responsibilities and Rights section of this Catalog for information on the grade grievance process.

An earned grade may be changed by the professor within one year if an error has occurred. **Grades cannot be changed on the basis of a student completing class work subsequent to the assignment of the final grade.**

Examination Credit
Credit units earned through the Advanced Placement Test (AP), College Level Examination Program (CLEP), Credit by Examination (CBE), or the International Baccalaureate Examination (IB) do not satisfy unit load requirements for enrollment status for programs such as financial aid, athletics, veterans benefits, or for graduation residency requirements.

Skyline College accepts the following types of test scores:

Advanced Placement Test (AP): Please see the Advanced Placement Exam Credit Policy chart to determine use of test scores.

College Level Examination Program (CLEP): Credit may be used to meet requirements for an Associate Degree. A maximum of 15 units can be earned 3 units for each of the tests within the five examination areas: English Composition, Social Sciences and History, Humanities, Natural Sciences, and College Mathematics. Upon receipt of official examination results, CLEP units will be posted to a student's Skyline College transcript by the Office of Concurrent Enrollments and Records. Should students transfer to a university, CLEP credit will be granted according to the policy of the receiving institution. Students are advised to meet with a counselor regarding CLEP credit. CLEP Credit cannot be applied to IGETC.

Credit by Examination (CBE): A currently enrolled student in good standing may be permitted to take a test for credit for courses, if qualified, because of previous training or instruction. By completing an examination approved by the faculty of the appropriate division, credit will be recorded. Testing is not allowed for a course for which credit has previously been granted or if credit has been earned in a more advanced course in the same sequence. Credit by Examination may not be used in order to improve a grade already received for a course. A maximum of 12.0 units toward an Associate Degree or 6 units toward a certificate may be earned through Credit by Examination, however, may not be counted in determining the 12.0 semester units in residence. The student's academic record shall be annotated to reflect that credit was earned by examination. A student may complete any course through Credit by Examination procedures only once.

To pursue the Credit by Examination option, obtain a Credit by Examination form from the Office of Concurrent Enrollments and Records. The Office of Concurrent Enrollments and Records approves eligibility. The student must submit the approved form to the division offering the course. If the course is available using the Credit by Examination option, a faculty member will arrange for the examination(s) to be administered and graded. All grades issued upon completion of Credit by Examination will be used in the calculation of the student's grade point average and for determining scholarship awards.

International Baccalaureate Examination (IB): See the International Baccalaureate Examination Credit Policy chart on pages 23-24 to determine use of test scores.

Transcript Evaluation Service
Students with external coursework, coursework completed at colleges and universities outside the San Mateo County Community District (SMCCCD), should use Transcript Evaluation Service (TES) to determine how it will be applied
to the following educational goal(s) at (Cañada College/College of San Mateo/Skyline College):

- Certificate or associate degree major requirements
- Associate degree general education requirements
- California State University General Education (CSU GE) certification
- Intersegmental General Education Transfer Curriculum (IGETC) certification

TES will complete a transcript evaluation of lower-division degree-applicable external coursework which serves as official response from the SMCCCD.

The external coursework will be included in the student’s academic history and awarded the same unit value (or quarter-to-semester unit equivalent) and grade (or grade point value) as listed on the external transcript. Evaluated coursework defined by the external institution as lower than a C (2.0) will have limitations for prerequisite, certificate, associate degree major, CSU GE certification and/or IGETC certification requirements.

To request a transcript evaluation a student must:

- Plan to complete a certificate, associate degree, CSU GE certification and/or IGETC certification within the SMCCCD
- Be enrolled in a class in a SMCCCD college
- Have a combination of previously completed and currently enrolled courses adding to 6 units in the SMCCCD
- Submit all official transcripts to the Office of Admissions & Records of your home college
- Update student information on WebSMART with current and accurate educational goal

NOTE: Students who completed all coursework in the SMCCCD should not request a transcript evaluation since the service only reviews coursework from outside the SMCCCD.

For more information, visit the District Transcript Evaluation website or call 650-574-6234.
Application of External Exams (AP, IB, CLEP, DLPT)

**Important Note to Students** – If you plan to complete an Associate Degree or CSU GE or IGETC certification within the San Mateo County Community College District, submit official AP, IB, or CLEP exam results to your Admissions and Records Office and request a SMCCD Transcript Evaluation at [www.smccd.edu/transeval](http://www.smccd.edu/transeval).

Skyline College applies external exam credit to associate degree general education requirements in the same manner as CSU applies external exam credit to CSU general education requirements. **External exam results are applied to General Education Area Requirements Only.** External exam evaluation results appear on WebSmart Degree Works Audit.

Transfer students should work with a counselor to determine how to apply external exam results to transfer major requirements. All students should work with a counselor to develop a comprehensive SEP after the external exam evaluation is completed.

**Advanced Placement Test Policy 2020-2021**

The following chart outlines the application of credit for College Board Advanced Placement (AP) towards the Skyline College Associate Degree General Education (GE) requirements, California State University General Education (GE) Breadth Certification, and Intersegmental General Education Transfer Curriculum (IGETC) Certification. Skyline College applies external exam credit to associate degree general education requirements in the same manner as CSU applies external exam credit to CSU general education requirements.

(♦) These units count toward eligibility for admission. The units may not apply towards Associate Degrees for Transfer (AD#T) or the baccalaureate degree. The units may not all apply toward certification of the corresponding GE#Breadth area. See Executive Orders 1036 and 1100 Revised for details.

(1) If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the Associate and/or Baccalaureate degree.

(2) If a student passes more than one AP exam in physics, only 6 units of credit may be applied to the Associate and/or Baccalaureate degree, and only 4 units of credit may be applied to a certification in CSU GE Breadth.

(3) Chemistry: 6 units toward CSU GE Area B1 and B3 if taken prior to fall 2009.

(4) Students who pass AP Environmental Science earn 4 units of credit. Tests prior to Fall 2009 may apply to either B1 and B3 or B2 and B3 of GE Breadth. Fall of 2009 or later, those credits may only apply to B1 and B3.

(5) French / German: 6 units if taken prior to fall 2009; 3 units if test taken after fall 2009. "Language" removed from GE-Breadth in fall 2011.

(6) IGETC: AP exams may be used in either area regardless of where the certified CCC's discipline is located.

(7) UC: Physics B replaced by Physics 1 and 2 in 2015.

(8) IGETC: AP exams in Biology, Chemistry, Physics 1, 2, & B, allow CCC campuses to apply 4 semester units toward IGETC certification. For Environmental Science, Physics C: Mechanics, and Physics C: Electricity/Magnetism, 3 semester units are applied for IGETC certification; therefore, students who complete these exams will be required to complete at least 4 semester units to satisfy the minimum required units for Area 5.

(∗) These units count toward eligibility for admission. The units may not apply towards Associate Degrees for Transfer (AD-T) or the baccalaureate degree. The units may not all apply toward certification of the corresponding GE-Breadth area. See Executive Orders 1036 and 1100 for details.

(**) Students seeking certification in CSU GE-Breadth prior to transfer must have passed the test before this date.

(1) The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-native speakers. Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.

(2) Areas of CSU GE-Breadth (A1 through E) are defined in Executive Order 1100. Areas of American Institutions. (US-1 through US-3) are set forth in Section 1A and 1B of Executive Order 1061, and at assist.org.

(3) IB exam may be used in either area regardless of where the certifying CCC's discipline is located.

(*) These units count toward eligibility for admission. The units may not apply towards Associate Degrees for Transfer (AD#T) or the baccalaureate degree. The units may not all apply toward certification of the corresponding GE#Breadth area. See Executive Orders 1036 and 1100 Revised for details.
(**) Areas of CSU GE Breadth (A1 through E) are defined in EO 1100. Areas of American Institutions (US-1 through US-3) are set forth in Sections IA and IB of EO 1061, and at assist.org.
(***) Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.
(1) If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered “Level I” and earns six units of baccalaureate credit; the higher score listed for each test is considered “Level II” and earns additional units of credit and placement in Area C2 of CSU GE Breadth, as noted.

**Defense Language Proficiency Test (DLPT)**

Utilizing the American Council on Education (ACE) recommendations as described below, Skyline College will award three lower division semester units for students who have achieved a passing score on a Defense Language Proficiency Test (DLPT).

The following documents may be accepted to award DLPT GE or course credit:
• Official Defense Language Institute Foreign Language (DLIFLC) Transcripts
• Official Joint Services Transcripts (JST)
• Defense Manpower Data Center (DMDC) DLPT Examinee Results
• DA Form 330 Language Proficiency Questionnaire

Additional Information on External Exams

1. Issues around credit for external exams are complex. Where there is common use for general education AREAS as noted above, the application of units for admission, the use of external exams to meet major requirements, and more, is complex and specific to the receiving transfer institution.*

2. In general, students who have earned credit through AP, IB, and/or CLEP should not take a comparable college course because credit will not be granted for both the external examination and the comparable college course.**

3. This chart identifies how the Skyline College applies AP, IB, and CLEP credit to associate degree general education area requirements, CSU GE areas, and IGETC areas in the same manner as the CSU system applies AP, IB, and CLEP credit to CSU GE area requirements. The chart does not provide information about if or how external exam results apply to major course requirements (for the Associate Degree).

4. At Skyline College, each instructional division determines if or how AP, IB, and/or CLEP credit is applied to associate degree major or certificate requirements. Students are encouraged to speak with a counselor for assistance.

5. Transfer Students: This chart does not provide information about transfer credit generated by external exams for the purpose of admissions, nor does it provide information on the application of AP, IB, or CLEP credit to meet lower-division major requirements. Each transfer institution determines if or how external exam results are applied. Students are strongly encouraged to speak with a counselor for assistance.

6. References to use for information about external exams are:
   • California State University, https://www2.calstate.edu/apply/transfer/Pages/advanced#placement#ap.aspx, retrieved 4/1/2020
   • University of California, https://admission.universityofcalifornia.edu/admission#requirements/ap#exam#credits/, retrieved 4/1/2020
   • Refer to the college catalog of your transfer destination to learn more about how external exam credit is applied on that campus.

* Students are strongly encouraged to research this information and work with their counselors to fully understand the application of these units towards transfer.

** Exceptions do apply. Students should work with a counselor to determine if exemptions apply to them.

Revised April 3, 2020
Academic Standards

Academic Standards Policy

The Academic Standards Policy of Skyline College and the San Mateo County Community College District is based on a cumulative grade point average of 2.0 (C), the minimum standard required for graduation or transfer. A grade point average of less than 2.0 is considered deficient.

Grade point average (GPA) is determined by dividing the total number of grade points earned by the total number of letter graded (GPA) units.

Academic standing, including determination of probation or dismissal status, is based upon all coursework completed at Cañada College, College of San Mateo, and Skyline College.

Special program academic eligibility requirements for financial aid, athletics and Veteran’s Educational Benefits may differ. Students should consult with the specific office for applicable program eligibility requirements.

Academic Adjustments For Students With Disabilities

Federal and state legislation requires that community colleges establish programmatic as well as physical access to their academic offerings. Students with verified disabilities have the right to receive reasonable academic adjustments in order to create an educational environment where they have equal access to instruction. The San Mateo County Community College District is responsible to make modifications to academic requirements and practices as necessary – without any fundamental alteration of academic standards, courses, educational programs or degrees – to ensure that it does not discriminate against qualified students with disabilities. Skyline College has developed a procedure for responding, in a timely manner, to accommodation requests involving academic adjustments. This procedure shall provide for an individualized review of each request. The procedure shall also permit the Section 504 Coordinator, or other designated District official with knowledge of accommodation requirements, to make an interim decision pending a final resolution. Further information about this policy may be obtained from the Educational Access Center Office, Building 5, Room 5-131A.

Academic Probation

A student will be placed on academic probation under the following criteria:

1. Based on low grade point average: A student who has attempted at least 12 semester units, as recorded on their official college transcript, is placed on academic probation if the student has earned below a cumulative 2.0 (C) grade point average.

2. Based on lack of satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as recorded on their official college transcript, is placed on academic probation when the percentage of all units recorded as W, I, NP and NC reaches or exceeds 50 percent. (See Calendar for deadline dates for withdrawal.)

A student may be placed on probation under either or both criteria.

A student on probation may schedule an appointment with a counselor for clearance for removal from probation if that status has resulted from circumstances beyond the student’s control.

Removal from Probation

A student on academic probation on the basis of grade point average is removed from probation when his/her cumulative grade point average is 2.0 (C) or higher.

A student on academic probation on the basis of failure to maintain satisfactory progress is removed from probation when the percentage of units completed is 50 percent or above.

Dismissal

A student in probationary status shall be subject to dismissal if in two subsequent semesters either or both of the following criteria are applicable:

1. The student’s cumulative grade point average is less than 1.75 in all units attempted.

2. The cumulative total of units in which the student has been enrolled for which entries of W, I, NP and NC have been recorded reaches or exceeds 50 percent.

A student in dismissal status must meet with a counselor in the Student Success Program in order to be reinstated to the College and allowed to enroll in classes. The Student Success Program consists of a workshop and meeting with a counselor during the semester. Students in dismissal status are restricted to a limited number of units. The student must demonstrate academic progress during the semester after reinstatement in order to enroll in subsequent semesters. Students who wish to waive the Student Success Program requirements must receive approval from a counselor or the Dean of Counseling.
Academic Renewal

Previously recorded substandard academic performance (grade of “D+”, “D”, “D-”, “F”, or “NP”) may be disregarded from the computation of the grade point average, if it is not reflective of a student’s demonstrated ability. A student may file a formal petition with the Office of Admissions and Records seeking grade alleviation of standard work.

- A maximum of 36 units of course work with substandard academic performance may be alleviated.
- A period of at least one year must have elapsed since the course work to be alleviated was completed.
- To be eligible to apply for academic renewal a student must have completed one of the following benchmarks since the course work to be alleviated was completed:
  - 9 units of course work with a 3.5 cumulative grade point average, or
  - 15 units of coursework with a 3.0 cumulative grade point average, or
  - 21 units of coursework with a 2.5 cumulative grade point average, or
  - 24 units of coursework with a 2.0 cumulative grade point average

Substandard course work to be alleviated must have been completed at Canada College, College of San Mateo, or Skyline College. However, the course work upon which the application for alleviation is based must be completed at a regionally accredited college or university that is accepted by SMCCCD, upon receipt of an official transcript from that institution.

The academic renewal policy may be applied when alleviation of prior course work is necessary to qualify a student for financial aid or admission to a program or transfer to another institution or for completion of a certificate or degree program.

Courses alleviated still reflect a “course attempt” for the purposes of the repeat policy.

When academic course work is alleviated from the computation of the grade point average, the student’s permanent academic record shall be properly annotated in a manner to ensure that all entries are legible, providing a true and complete academic history.

Withdrawal From Classes

To drop/withdraw from a class, students should access WebSMART registration. Official withdrawal is the responsibility of the student. A drop with a refund is subject to refund deadlines. A student who does not withdraw in accordance with established procedures may receive a penalty grade. If you experience a problem with registration, contact Admissions and Records, Building 2, second floor or call (650) 738-4251.

A student may drop a semester-length class during the first three weeks of instruction (one day prior to Census) and no record of the class will appear on the student’s academic record. In courses less than a regular semester's duration, a student may drop prior to the completion of 20 percent of the period of instruction and no record of the class will appear on the student’s academic record.

After the third week of instruction, a student may withdraw from a semester-length class, whether passing or failing, at any time through the last day of the fourteenth week of instruction (or 75 percent of a term, whichever is less). A “W” grade shall be recorded on the student’s academic record. In courses less than a regular semester’s duration, a student may withdraw prior to the completion of 75 percent of the period of instruction and a “W” grade shall be recorded on the student’s academic record.

The academic record of a student who remains in class beyond the time periods set forth above must reflect a grade using an authorized symbol other than “W” (refer to Grades, Grade Points). A student who must withdraw for verifiable extenuating circumstances (i.e., personal illness, automobile accident, death or severe illness in the immediate family or other severe physical or emotional hardship), may petition the Academic Standards and Policies Review Committee for an exception to this policy.

Any extenuating circumstance must be verified in writing, including, but not limited to, a letter from a physician, official accident report, obituary notice, etc.). Supporting documentation is required.

Military Withdrawal

Military withdrawal may be requested when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a military withdrawal symbol (MW) will be assigned for each course if the withdrawal occurs after the period during which no notation is made for withdrawals on the student's record. Military withdrawals are not counted in progress probation and dismissal calculations. Students granted military withdrawal may request a refund of the enrollment fee. The entire enrollment fee will be refunded unless academic credit has been awarded.

Course Repetition

A “course repetition” occurs when a student who has previously received an evaluative symbol (i.e. A, A-, B+, B, B-, C+, C, D+, D-, F, W, P/NP, CR/NC, RD, I) in a credit course, re-enrolls in that course and receives an evaluative symbol OR attempts a course and receives an evaluative or non-evaluative symbol for the course (i.e. A, A-, B+, B, B-, C+, C, D+, D-, F, W, P/NP, CR/NC, RD, I) and wishes to enroll again in the same course. All course attempts in a student’s academic record count toward this enrollment limitation.
Course Repetition to Alleviate Substandard Work (Grade Alleviation)

1. A student who has earned a substandard grade (i.e., D+, D, D-, F, NP, NC) in a course that is not designated as repeatable may repeat the course to improve the grade. To alleviate substandard work, a “course attempt” occurs when a student receives an evaluative or non-evaluative symbol for the course (i.e. D+, D, D-, F, W, NP, NC). All course attempts in a student's academic record count toward this enrollment limitation.

2. When a student repeats a course to alleviate substandard academic work (i.e., D+, D, D-, F, NP, NC), the previous (i.e., last) grade and credit will be disregarded in the computation of grade point averages. A student may attempt a course a maximum of three times. A “W” counts as a course attempt.

Course Repetition for Satisfactory Work

When a student completes a course that is not designated as repeatable and receives a satisfactory grade (i.e., A, A-, B+, B, B-, C+, C), the student may not repeat the course unless there is another provision that allows the repetition. Examples of these provisions are described below:

Significant Lapse of Time

1. A student may repeat a course in which s/he has received a standard grade (i.e., A, A-, B+, B, B-, C+, C, or Pass) after at least 36 months has elapsed since the student was awarded the grade in the course and the District has established a recency prerequisite that applies to the course or an institution of higher learning has established to which the student seeks to transfer has established a recency requirement which the student will not be able to satisfy without repeating the course. The student should submit a course repetition request form to the Dean of Counseling.

2. The grade and units from the first course completion will be disregarded in the computation of grade point averages.

3. If a student needs to repeat an active participatory experience course in physical education or visual or performing arts, or an active participatory course that is related in content, due to significant lapse of time, that repetition shall be counted in applying the limit on repetitions. Exception: if the student has already exhausted the number of repetitions permitted, additional repetition due to significant lapse of time may be permitted. The student should submit a course repetition request form to the Dean of Counseling.

Students with Verified Disabilities Repeating a Special Class

1. A student with a verified disability may repeat a special class designated for students with disabilities any number of times when an individualized determination verifies that such repetition is required as a disability-related accommodation for that student. When a student with a disability repeats a class, the previous grade and credit shall be included in the computation of grade point averages.

2. Special classes are those instructional activities designed to address the educational limitations of students with disabilities who would be unable to substantially benefit from regular classes even with appropriate support services or accommodations.

Variable Unit Courses

1. A student may enroll in a variable unit course as many times as necessary to complete one time the entire curriculum and unit value of the course. However, a student may not repeat any portion of a variable unit course that has already been completed and evaluated.

Legally Mandated Courses

1. A student may repeat a course any number of times where it is required for a student to meet a legally mandated training requirement as a condition of paid or volunteer employment, regardless of whether the student received a substandard grade (i.e., D+, D, D-, F, No Pass). A student must present documentation to the Office of Admissions to certify that the course is legally mandated.

2. A student may petition to repeat a course needed for employment or licensing because of a significant change in the industry or licensure standards. Student may take these courses any number of times. A student must present documentation to the Office of Admissions certify that the course is needed because of a significant change in the industry or licensure standards.

Cooperative Work Experience Education

1. A student may repeat an occupational work experience course if the college only offers one course in occupational work experience in a given field and that course is not offered as a variable unit open-entry/open-exit course.

2. A student may be repeat an occupational work experience course any number of times as long as the student does not exceed the limits on the number of units of cooperative work experience.

Extemporaneous Circumstances

1. Under certain circumstances, students may repeat a course if extemporaneous circumstances justify a repetition. Students must provide documentation of the extemporaneous or extraordinary circumstances to justify such repetition. Extraordinary circumstances are similar to those
that would justify the District in providing a student a refund. Extenuating circumstances are verified cases of accident, illness, natural disaster, or other circumstances beyond the control of the student. Grades awarded for courses repeated under these provisions may be included when calculating a student's grade point average. Students must present a petition for Extenuating Circumstances to the Office of Admissions.

2. A student may enroll for one additional attempt only if documentable extenuating circumstances exist that match the dates of the course for the previous enrollment. Examples of extenuating circumstances are fire, flood, accident/hospitalization, or other extraordinary documentable experience. Students must present a petition for Extenuating Circumstances to the Office of Admissions.

Courses Similar in Content

1. The colleges have established “families” of courses with similar educational activities (See #2 below.) Although a course cannot be repeated, a student may attempt up to four courses in a subject “family.” This limitation applies even if the student receives a substandard grade (i.e., D+, D, D-, F, NP, NC) or a “W.” Enrollment limitations are monitored district wide for a subject “family.” A list of the courses in subject “families” is published in this catalog.

2. Students may attempt active participatory courses in physical education/kinesiology, and visual or performing arts where the course objectives are met by repeating a similar primary educational activity and an expanded educational experience occurs each time the course is attempted for the following reasons:
   
   a. The student’s skills or proficiencies will be enhanced by supervised repetition and practice within class periods and
   
   b. Active participatory experience in individualized study or group assignments is the method to learn the objectives.

General Provisions Regarding Course Repetition

Courses that are repeated shall be recorded on the student’s permanent academic record using an appropriate symbol; the permanent record shall be annotated in a manner that all work remains legible, insuring a true and complete academic history; the District may claim the attendance of students for enrollments in credit courses for state apportionment; nothing in these procedures shall conflict with Education Code, pertaining to the finality of grades assigned by instructors, or with Title 5 or District procedures relating to the retention and destruction of records; course repetition is monitored through the District's computer programs.

Repeatable Courses

Three types of courses are designated as repeatable and are identified in the college catalog:

Intercollegiate Athletics

Courses in which student athletes enroll to participate in an organized competitive sport sponsored by the district or a conditioning course which supports the organized competitive sport may be designated as repeatable.

Intercollegiate Academic or Vocational Competition

1. Courses that are specifically for participation in non-athletic competitive events between students from different colleges may be designated as repeatable. The course must be tied to the student's participation in the competition. The event must be sanctioned by a formal collegiate or industry governing body.

2. Enrollment is limited to no more than four times. This enrollment limit applies even if the student receives a substandard grade or “W” during one or more of the enrollments in such a course or petitions for repetition due to special circumstances.

3. When a course is repeated pursuant to this section, the grade received each time shall be included for the purposes of calculating the student’s grade point average.

4. Apportionment shall be limited.

Required by CSU or UC for Completion of a Bachelor's Degree

Repetition of the course is required by CSU or UC for completion of the bachelor's degree. Courses are limited to four attempts and this enrollment limitation applies even if the student receives a substandard grade or a “W.”

Prerequisites, Corequisites, And Recommended Preparation

The Board of Trustees of the San Mateo County Community College District allows colleges to establish prerequisites, corequisites, and recommended preparation for courses and educational programs. Prerequisites and corequisites must be determined to be necessary and appropriate and must be established in accordance with Title 5 regulations in the California Administrative Code.

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program. Prerequisites are so designated in course descriptions in this Catalog.

A corequisite is a course that a student is required to take simultaneously in order to enroll in another course. Corequisites are so designated in course descriptions in this Catalog.

Recommended preparation for a course or program is a condition that a student is advised, but not required, to meet before or in conjunction with enrollment. Advisories are designated as “recommended” in course descriptions in this Catalog.

Why Prerequisites and Corequisites?

Title 5 (state regulations that govern community colleges) requires that, if a course has a prerequisite, it must be necessary for the student to succeed in the target course. Furthermore, the college must ensure that the prerequisite is equitably and fairly enforced and that it has been approved in a separate action by the curriculum committee at each college.

What if I am currently enrolled in the prerequisite course(s) within the SMCCCD?

If you are currently enrolled in the prerequisite course(s), the computer will not prevent your enrollment in the desired course. However, should you receive a final grade other than “A,” “B,” “C” or “P” in the prerequisite course(s), you will be notified by Admissions and Records through your student email (my.smccd.edu) that you have been administratively dropped from the course. You are advised to meet with a counselor for further assistance with enrollment.

What if I completed the prerequisite at another college outside the San Mateo County Community College District?

If you believe you have met the stated prerequisite at another college/university outside the San Mateo County Community College District, you must file a Prerequisite Equivalency/Reciprocity of Course Placement form with the Counseling Department. The form is available at the One Stop Center in Building 2. Submit the completed form with a copy of your unofficial transcript or grade report from the other college to the Counseling Appointment Desk in Building 2. If your prerequisite request is approved, the enrollment block will be lifted, allowing you to enroll in the course. If your request is denied, you will be contacted by Counseling through your student email as to the reason(s) why.

How can I challenge a prerequisite?

You can challenge a prerequisite on one or more of four grounds, listed below:

- If you believe you have the knowledge or ability to succeed in the course without completing the prerequisite.
- If you believe that the prerequisite course has not been approved in violation of Title 5 regulations or the SMCCCD District Model Policy.
- If you believe that the prerequisite is discriminatory or is being applied in a discriminatory manner.
- If you believe that the prerequisite course has not been made reasonably available.

How do I file a prerequisite challenge?

If you wish to file a prerequisite challenge, follow these steps:

The Prerequisite Challenge Form is available at the Student Services Information Center in Building 2 or from a counselor, or online at www.skylinecollege.edu/prerequisites/challengeprocess.php. A counselor can help you determine whether you would benefit from the challenge process.

- Next you should contact the appropriate division dean to obtain specific information about filing and documenting your challenge request.
- If you elect to challenge, submit the completed challenge form with documentation to the appropriate Division Office for review.
- You will be notified in 5 business days if your challenge is subsequently approved, and you will be allowed to enroll in the course. If your challenge is not approved, you will be administratively withdrawn from the course.

What message will I receive on WebSMART if I do not meet the prerequisite for the course in which I am attempting to enroll?

If you have not met the prerequisite or presented documentation to challenge the prerequisite you will receive the following message on WebSMART when you attempt to enroll: You do not meet the prerequisites for this course. You will not be able to register for the class until you clear the prerequisite(s). To obtain prerequisite information, equivalency/challenge processes, and forms go to: www.skylinecollege.edu/prerequisites/index.php.

Sequential Courses

To enroll in sequential courses, students must complete the courses in order – e.g., English 836 and Reading 836 must...
be completed with a “C” or better grade before a student enrolls in English 100. Also, a student may not enroll in or receive credit for a course taken after successful completion of an equivalent course – e.g., Spanish 111 cannot be taken after successful completion of Spanish 110.

Related Content Courses

1. The SMCCD has established related courses with similar educational activities (See #2 below.) Although a course cannot be repeated, a student may attempt up to four related courses. This limitation applies even if the student receives a substandard grade (i.e., D+, D, D-, F, NP, NC) or a “W.” Enrollment limitations are monitored district wide for related courses.

2. Students may attempt active participatory courses in physical education/kinesiology, and visual or performing arts where the course objectives are met by repeating a similar primary educational activity and an expanded educational experience occurs each time the course is attempted for the following reasons:
   - The student's skills or proficiencies will be enhanced by supervised repetition and practice within class periods and
   - Active participatory experience in individualized study or group assignments is the method to learn the objectives.
Privacy Rights Of Students

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. To inspect and review the student’s education records within 45 days of the day Skyline College receives a request for access. Students should submit to the Dean of Enrollment Services’ Office written requests that identify the record(s) they wish to inspect. The Dean of Enrollment Services will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Dean of Enrollment Services’ Office, the student shall be advised of the correct official to whom the request should be addressed.

2. To request an amendment of the student’s education records that the student believes are inaccurate. Students may ask Skyline College to amend a record that they believe is inaccurate. They should write the Dean of Enrollment Services, clearly identify the part of the record they want changed, and specify why it is inaccurate. If Skyline College decides not to amend the record as requested by the student, the student shall be notified of the decision and advised as to his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. To consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Skyline College in an administrative, supervisory, academic or research, or support staff position (including law enforcement personnel and health staff); a person or company with whom Skyline College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. As allowed within FERPA guidelines, Skyline College may disclose education records without consent to officials of another school, upon request, in which a student seeks or intends to enroll.

4. To file a complaint with the U.S. Department of Education concerning alleged failures by Skyline College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC, 20202-4605. At its discretion, Skyline College may provide Directory Information in accordance with the provisions of the Family Education Rights and Privacy Act. Directory Information is defined as that information which would not generally be considered harmful or an invasion of privacy if disclosed. Designated Directory Information at Skyline College may include the following: address, telephone number, dates of attendance, degrees and awards received, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, final theses/dissertation, photograph, full-time/part-time status, and most recent previous school attended. Students may withhold Directory Information by notifying the Registrar in writing; please note that such withholding requests are binding for all information to all parties other than for those exceptions allowed under the Act. Students should consider all aspects of a Directory Hold prior to filing such a request. Although the initial request must be filed during the first two weeks of the enrollment period, requests for non-disclosure will be honored by the College for no more than one academic year. Reauthorization to withhold Directory Information must be filed annually in the Registrar’s Office within the first two weeks of any semester.

The Solomon Act requires colleges to release full directory information to the U.S. Armed Forces.

A copy of the Family Educational Rights and Privacy Act (Sec. 438, P.L. 93-380) is available in the Office of Admissions Records, Building 2, Student Services Center, during normal business hours or on the web.

Student Right-To-Know And Campus Security Act

In order to make Skyline College a safe and pleasant environment for students and employees, the College has established procedures in compliance with the Student Right-to-Know (SRTK) and Campus Security Act
STUDENT RIGHTS & RESPONSIBILITIES

(Federal Public Law 101-542). Persons seeking information concerning Skyline College law enforcement procedures, crime prevention efforts, and crime statistics should contact the Department of Public Safety, Building 6, Room 6-106, (650) 738-7000. More information may be found at https://www.smccd.edu/publicsafety/annualreport.php.

The Act also requires institutions to make available the completion or graduation rate of certificate or degree-seeking full-time students. Persons seeking information concerning completion or graduation rates specified by the Act should Contact the Office of Admissions and Records, Building 2, Student Services Center, (650) 738-4251, for additional information.

More information about SRTK may be found on the California Community Colleges Chancellor’s Office website at http://srtk.cccco.edu/index.asp.

Academic Integrity / Honesty

Academic dishonesty defrauds all those who depend upon the integrity of the College, its courses and its degrees and certificates. The college community has the responsibility to make every reasonable effort to foster honest academic conduct.

Academic dishonesty occurs when a student attempts to show possession of a level of knowledge or skill that he or she does not possess. The two most common kinds of academic dishonesty are “cheating” and “plagiarism.” Cheating is the act of obtaining or attempting to obtain academic work through the use of dishonest, deceptive, or fraudulent acts. Plagiarism is representing the work of someone else as his/her own and submitting it to fulfill academic requirements.

It is the student's responsibility to know what constitutes academic dishonesty. If a student is unclear about a specific situation, he/she should speak to the professor. The following list includes, but is not limited to, some of the activities which exemplify academic dishonesty:

Cheating:
- Copying, in part or in whole, from someone else’s test.
- Submitting work presented previously in another course, if contrary to the rules of either course.
- Altering or interfering with grading.
- Using or consulting any sources or materials not authorized by the professor during an examination.
- Committing other acts that defraud or misrepresent one's own academic work.

Plagiarism:
- Incorporating the ideas, words, sentences, paragraphs, or parts of another person’s writing, without giving appropriate credit, and representing the product as your own work.
- Representing another’s artistic/scholarly works (such as musical compositions, computer programs, photographs, paintings, drawings, or sculptures) as your own.
- Submitting a paper purchased from a research or term paper service.

Other specific examples of academic dishonesty:
- Purposely allowing another student to copy from your paper during a test.
- Giving your homework, term paper or other academic work to another student to plagiarize.
- Having another person submit any work in your name.
- Lying to an instructor or College official to improve your grade.
- Altering graded work after it has been returned, when submitting the work for re-grading without the instructor's permission.
- Removing tests or examinations from the classroom without the approval of the instructor.
- Stealing tests or examinations
- Having your work corrected for spelling or grammar(if contrary to the rules of the course).
- Forging signatures on drop/add slips or altering other College documents.

Consequences of Academic Dishonesty:

Academic and student disciplinary sanctions may be applied in cases of academic dishonesty. Depending on the seriousness of the infraction, you may:
- Receive a failing grade on a test, paper, or examination which may result in a lower course grade or failure in the course.
- Have your course grade lowered, or possibly fail the course.

Under the standards of Academic Sanctions and Disciplinary Sanctions, you may be subject to:
- A warning
- Temporary exclusion from an activity or class
- Censure
- Disciplinary probation
- Suspension
- Expulsion

The Dean of Enrollment Services/Disciplinary Officer maintains a record of students who have engaged in academic dishonesty. This information is used to identify and discipline students who have been reported for academic dishonesty more than once.

Student Appeals:

In all instances, a student who has been subject to an academic or disciplinary sanction has the right to appeal the decision of the professor or administrator in accordance with established College due process procedures. Refer to 2020-2021 Catalog www.skylinecollege.edu
to Student Grievance and Appeals Policy in the Student Handbook.

**Attendance Regulations**

Regular attendance in class and laboratory sessions is an obligation assumed by every student at the time of registration. Regular attendance affords the student the opportunity to acquire the content of the specific session and, over the length of the course, the continuity of the professor's plan for the presentation of the subject matter in the course.

*It is the student's responsibility to withdraw when absences have been excessive.* Absence means nonattendance for whatever reason. It is the prerogative of the professor to determine when absences are excessive. A guideline used by many professors to determine when absences are excessive is twice the number of clock hours that the class meets during a week, or a pro-rata value designed to relate to shorter than semester length courses or practicum intensive programs. This is strictly a guideline and will vary with each professor depending on the subject matter of the course or laboratory. The professor may drop a student from a course if absences, in the opinion of the professor, have placed the student's success in jeopardy.

If there were extenuating circumstances related to the absences which resulted in being dropped from a course, the student may petition the Division Dean within five academic calendar days. The petition must contain an explanation of the absences, progress in the course to date, and justification for reinstatement. If the absences were due to illness, the petition must include a physician's written confirmation or a confirmation from the College Health Center. A student submitting a petition may, with the permission of the professor, remain in class until the decision of the Academic Standards and Policies Committee is reached. After considering the petition, the Committee will make a recommendation to the professor. In all cases, the decision of the professor is final.

For the purpose of evaluating whether the student’s conduct is a violation of the Student Code of Conduct, no consideration shall be given to the student’s actual or perceived disability unless such disability is being asserted by the student as a defense to, in mitigation of a potential violation.

Immediate Interim Suspension: In cases where the alleged violation is deemed by the Disciplinary Officer to pose an imminent threat to the health and safety of the college community, the student may be suspended immediately pursuant to Education Code Section 66017, provided that a reasonable opportunity is afforded a suspended person for a hearing within ten (10) days.

The student will be notified of charges/alleged violations and the basis for the charges. Based on the information at the Conference, the Disciplinary Officer may either dismiss the charges for lack of merit or notify the student of one or more disciplinary actions being taken (described in Step 3). The student may request the opportunity for a Student Disciplinary Hearing.

Student Disciplinary Hearing
Hearing Notice: A notice of the hearing will be sent to the student and shall specify the date, time, and place of the hearing, a statement of the charges against the student, and the date, time, and location that the tangible evidence will be made available for inspection. Accommodations of such concerns may be addressed by providing separate facilities, providing participation by telephone, videophone, videoconferencing, videotape, audio tape, written statement, or other means, as determined in the judgment of the Disciplinary Officer. Any testimony of a witness that is not subject to the direct examination of an accused student shall only be admitted if the witness signs under penalty of perjury that the testimony is true and accurate.
- **Plea:** The student shall admit or deny responsibility for each charge. - **Exclusion:** A student from a class and/or facility for the day of the offense and/or the next class meeting or day. Because suspended students are not allowed on District property, such appeals shall be submitted in writing by email or letter to the College President within two days after receipt of the written decision.

Expulsion of a student is the indefinite termination of student status and all attending rights and privileges. Expulsion of a student is accomplished by action of the Board of Trustees on recommendation of the College President and the Chancellor. An expelled student shall not be allowed to register in any subsequent semester without the approval of the College President. The process is as follows:

• The College President shall forward to the Chancellor a letter of recommendation for expulsion which includes a brief statement of charges and a confidential statement of background and evidence relating to the charge(s).
• The Chancellor shall review the recommendation for expulsion with the Office of County Counsel
• The Chancellor, as Secretary for the Board of Trustees, shall forward a letter to the student by certified mail to the address last on file with the District, at least three days prior to the meeting, advising him/her of the charges and the intention of the Board of Trustees to hold a closed session to consider his/her expulsion. The letter shall include the date, time and place of the Board’s meeting. Unless a student requests a public hearing in writing at least 48 hours prior to the scheduled hearing, the hearing shall be conducted in closed session.
• The student is entitled to be present during presentation of the case and may be accompanied by a representative. If the student chooses to be represented by an attorney, the student must so notify the Chancellor no later than five working days prior to the hearing. The student has the right to examine any materials upon which charges against him/her are based, and shall be given the opportunity to present his/her evidence refuting the charges to the Board of Trustees. The student or his/her representative may cross-examine any witness. The district bears the burden of proof.
• The report of final action taken by the Board of Trustees in public session shall be made a part of the public record and forwarded to the student. Other documents and materials shall be regarded as confidential and will be made public only if the student requests a public hearing.

Sexual Harassment Involving Students

It is the policy of the San Mateo County Community College District to prohibit, in any and all forms, the sexual harassment of its students and staff. Sexual harassment of students by other students, staff or members of the public while on district property and/or the harassment of staff by students or members of the public while on district property is considered intolerable behavior that will be investigated and acted upon immediately. (Board Policy 7.67)

According to both State and Federal laws and guidelines issued by the Equal Employment Opportunity Commission (EEOC), sexual harassment is a form of discrimination. Sexual harassment is misconduct that can change the course of careers, disrupt the climate of an entire class, affect academic performance, and undermine the integrity of educational relationships. It is an abuse of power which confuses the boundaries of personal and professional roles and breaches trusting relationships which should exist among members of the College community.

1. It is the policy of the San Mateo County Community College District to provide its students with a learning environment free of sexual harassment and intimidation. This policy addresses interactions between a student and faculty, staff members, or other students. Because of the seriousness of these matters, the District will make every effort to assure that sexual harassment does not occur and will take disciplinary actions up to and including dismissal or expulsion for policy violation. It is the responsibility of each District employee and student to maintain a level of conduct that is in compliance with District policy.

2. For purposes of this policy, sexual harassment is defined as unsolicited and unwelcome sexual advances, requests for sexual favors, and/or other verbal, physical, or visual conduct of a sexual nature which occur under any of four circumstances:
   a. Submission is made, either explicitly or implicitly, a term or condition of admission to or retention in a course or program;
   b. Submission or rejection by a student is used as a basis for grading.
   c. Submission or rejection by a student affects negatively a student’s class performance, opportunity to benefit from class participation, or constitutes a disruption of the learning process;
   d. Such conduct creates, encourages, or condones an intimidating, hostile, or otherwise offensive environment for learning and/or teaching.

3. Sexual harassment includes, but is not limited to, the following:
   a. Making unsolicited written, graphic, verbal and/or physical contact with sexual overtones. Written examples: suggestive or obscene letters, notes, invitations, or electronic communications (e.g. text messages, emails, videos.) Graphic examples: prurient display of objects, pictures, cartoons, or posters. Verbal examples: derogatory comments, slurs, jokes, innuendos and epithets. Physical examples: indecent exposure, lewd acts, assault, touching, gestures, impeding or blocking movement.
   b. Continuing to express sexual interest after being informed that the interest is unwelcome. (Mutual attraction is not considered sexual harassment.)
   c. Making reprisal, or implied threats of reprisal, following a negative response. This can include denial of, or actually withholding, support or opportunities normally provided in the form of counseling or other services, suggesting the assignment of a poorer grade than earned.
   d. Engaging in implicit or explicit coercive sexual behavior which has the effect of controlling, influencing, or affecting the enrollment, grade, academic success, and/or learning environment of any student.
   e. Offering favors or preferential treatment such as: assignment of better grades than earned; opportunities for extra credit; recommendations, favorable assigned duties or shifts; or other benefits in exchange for sexual favors.

4. Complaint Procedures
   a. Staff to Student or Student to Student
      1. If a student complainant feels that a specific act or
environment is offensive and in violation of this policy, the complainant should first notify the offender in an effort to stop the offensive behavior. If the behavior does not stop, or the complainant does not wish to confront the offender directly, the student should notify the Vice President, Student Services or designee.

2. Once received, the complaint will be investigated and acted upon in accordance with District Rules and Regulations. The Office of Personnel Services will be notified of all claims of sexual harassment at the time the complaint is received. Investigations involving faculty or staff members will be coordinated by the Vice Chancellor of Human Resources and Employee Relations.

b. Student to Faculty/Staff

1. If a faculty or staff member is the complainant and feels that a specific act committed or environment created by a student is offensive and in violation of this policy, the complainant should first notify the offender in an attempt to stop the behavior.

2. If the behavior continues, the complainant will then notify the Vice President, Student Services or designee. Such continued behavior constitutes a disruption of the learning and teaching environment.

3. Once received, the complaint will be investigated and acted upon in accordance with District Rules and Regulations. The Office of Personnel Services will be notified of all claims of sexual harassment at the time the complaint is received. Investigations involving faculty or staff members will be coordinated by the Vice Chancellor of Human Resources and Employee Relations.

c. In accordance with the guidelines on sexual harassment of the Equal Employment Opportunity Commission, the District intends: 1) to raise the subject of sexual harassment affirmatively in formal staff training and other arenas; 2) to express strong disapproval for the inappropriate behavior; and 3) to implement this policy fully.

d. District employees or students found to be in violation of this policy may be subject to full disciplinary measures up to and including dismissal or expulsion, as appropriate, pursuant to any and all established District procedures. For represented employees, any action taken in response to a complaint under this policy is subject to the provisions of collective bargaining agreements. Upon request by the collective bargaining units, the District will negotiate any issues related to the complaints or investigations under this policy that are mandatory subjects for bargaining.

e. For represented employees, any action taken in response to a complaint under this policy is subject to the provisions of collective bargaining agreements. This policy shall apply to all employees, students and any other individuals who come onto District property.

2. The District seeks to foster an environment in which all employees and students feel free to report incidents of harassment without fear of retaliation or reprisal. Therefore, the District also strictly prohibits retaliation against any individual for filing a complaint of harassment or for participating in a harassment investigation. Such conduct is illegal and constitutes a violation of this policy. All allegations of retaliation will be swiftly and thoroughly investigated. If the District determines that retaliation has occurred, it will take all reasonable steps within its power to stop such conduct. Individuals who engage in retaliatory conduct may be subject to disciplinary action, up to and including termination or expulsion. Engaging in intimidating conduct or bullying against another employee through words or actions, including direct physical contact; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyber bullying are strictly forbidden.

3. Any individual who believes that he or she has been harassed, bullied or retaliated against in violation of this policy and wishes to report such incidents should use the procedure provided by his/her supervisor or the office of the Vice Chancellor of Student Services. Supervisors are mandated to report all incidents of harassment and retaliation that come to their attention to the Vice Chancellor of Human Resources and Employee Relations.

This policy applies to all aspects of the academic and work environment, including but not limited to classroom conditions, grades, academic standing, employment opportunities, scholarships, recommendations, disciplinary actions, and participation in any District activity. 5. The Chancellor shall ensure that the institution undertakes education and training activities to counter discrimination and to prevent, minimize and/or eliminate any hostile environment that impairs access to equal education opportunity or impacts the terms and conditions of employment.

6. The Chancellor shall establish procedures that define harassment throughout the District. The Chancellor shall further establish procedures for employees, students and other members of the District community that provide for the investigation and resolution of complaints regarding harassment and discrimination. All participants are protected from retaliatory acts by the District, its employees, students and agents.

7. The District shall promptly investigate and resolve complaints of harassment and will assure that any harm resulting from the harassment will be promptly redressed by restoring any lost benefit or opportunity. All participants are protected from retaliatory acts by the District, its employees, students, and agents.

8. This policy and related written procedures shall be widely published and publicized to administrators, faculty, staff, and students, particularly when they are new to the institution. They shall be available for students and employees on the District’s public website.

9. It is the responsibility of each individual to maintain a level of conduct that is compliant with this policy. Student Resources

Athletics
Skyline College sponsors men's and women's intercollegiate athletic competition within the Coast Conference. Skyline College participates as a member of the Coast Conference in the following intercollegiate sports:

**VARSITY**
- Varsity Baseball
- Men's Varsity Basketball
- Men's Varsity Soccer
- Varsity Wrestling
- Women's Varsity Badminton
- Women's Varsity Basketball
- Women's Varsity Soccer
- Women's Varsity Volleyball

Intercollegiate athletic competition is governed by the Coast Conference and the California Community College Athletic Association (CCCAA). Obtaining clearance for athletic eligibility often requires considerable checking of records. These procedures should be started well in advance of the opening of each athletic season. The Athletic Director will interpret the State Athletic Constitution and Bylaws along with Conference regulations for all persons concerned. In general, the following principles pertain to matters of eligibility:

1. In order to be eligible, a student-athlete must be actively enrolled in a minimum of 12 units during the season of sport. Such eligibility is required for non-conference, conference, and post-conference participation.
2. To be eligible for the second season of competition, the student-athlete must complete and pass 24 semester units with a cumulative 2.0 (C) grade point average. These units must be completed prior to the beginning of the semester of the second season of competition. All units must be completed and passed at a regionally accredited post-secondary institution with at least six of the units earned in their previous semester as a full-time student.
3. A student transferring for academic or athletic participation, who has previously participated in intercollegiate athletics at another California Community College, must complete 12 units in residence prior to the beginning of the semester of competition.
4. In order to continue athletic participation in any sport, the student-athlete must maintain a cumulative 2.0 (C) grade point average in accredited post-secondary coursework computed since the start of the semester of first participation and pass at least six units in their previous semester as a full-time student.
5. The 12 unit residency rule for previous participants will be waived for a student-athlete who has not competed at a post-secondary institution in the past two years.
6. In meeting the unit requirements, courses in which grades of D, F, or NC were received may be repeated. Under special circumstances, courses that have been completed with a grade of C or better may be repeated; however, the units will not be counted toward the minimum unit requirement in the semester of competition.

Student-athletes who plan to transfer prior to receiving an Associate degree should meet with their counselor/coach and verify eligibility status for transfer based on past work and test scores from high school.

Those students who transfer to a four-year school for athletic competition and wish to seek financial assistance must meet minimum requirements in accordance with the Bylaws of the National Collegiate Athletic Association (NCAA) or the National Association of Intercollegiate Athletics (NAIA).

Questions regarding eligibility should be addressed to the Dean of Kinesiology/Athletics/Dance, Building 3, Room 3130, or call (650) 738-4271. Eligibility questions may also be researched by visiting [www.cccaasports.org](http://www.cccaasports.org), [www.ncaa.org](http://www.ncaa.org), and, [naia.org](http://naia.org).

Goals for the women who participate in the academy are to:
• Obtain knowledge regarding how to reach educational, career, personal and financial goals
• Build healthy interpersonal and intercultural relationships
• Develop effective interpersonal and intercultural communication skills

Project Change
Project Change is designed to build community, on and off campus, that will serve as social, emotional and academic support for student members. The program connects formerly incarcerated and system impacted students to support services at Skyline College, such as EOPS, Promise Scholars, SparkPoint and the Wellness Center; as well as community resources.

The Project Change Club provides students with a voice on campus and a social network of students, staff and faculty who understand many of the experiences and concerns that system impacted students have in going to college, and who want you to succeed.

Incarceration impacts more than just those who serve time in correctional facilities. Family, friends and whole communities are often heavily affected, or system impacted, by incarceration in the United States. Project Change is open to all students who have been incarcerated, served time in a correctional facility, have been placed on probation, are on parole, or otherwise system impacted.

For more information and an application form, visit the Project Change website www.skylinecollege.edu/projectchange or contact the Project Change Coordinator, John Skovgaard at skyprojectchange@smccd.edu.

**Financial Aid**

Skyline College is dedicated to the concept that no individual should be denied an education solely for financial reasons. Financial aid provides access and resources to those students who need financial assistance to meet the basic costs of attending college. All students are encouraged to apply for financial aid.

There are four types of financial aid: 1) Grants, 2) Scholarships, 3) Work Study, and 4) Loans. There are two primary sources of financial aid - the Federal government and the State of California. To be eligible for all federal and most state grants and loans, students must meet the following criteria:

- Be enrolled in an eligible program leading to an associate degree, certificate or transfer toward a university at any of the colleges in the San Mateo County Community College District. The Emergency Medical Technician (EMT) certificate Program is NOT an eligible course of student for federal and most state financial aid.
- Be a U.S. citizen or eligible non-citizen*. Note: Some State of California programs may have a less restrictive citizenship requirement for non U.S. citizens.
- Have completed the enrollment process which involves assessment testing, college orientation and completion of a Student Educational Plan (SEP) with a counselor.
• Submit all required forms and documents requested by the Financial Aid Office or Department of Education
• Meet and maintain satisfactory academic progress requirements as defined by the Financial Aid Handbook.
• Have financial need (except in the case of unsubsidized federal loans) as demonstrated by a completed FAFSA (available online at www.FAFSA.gov) or California Dream Act Application (available at www.dream.csac.ca.gov) and Financial Aid Office review.
• Register with the Selective Service if you are male between 18 and 25 years of age.
• Do not owe a refund or repayment on a federal grant.

Awards and Disbursement of Financial Aid
Students can check their Financial Aid status through WebSMART by following these steps:

• Login to WebSMART
• Click on the “Financial Aid” tab
• Click on “My Overall Status of Financial Aid”
• Make sure to select a specific “Aid Year” and click “Submit”
• Here you will find Cost of Education, Status of Academic Progress and Award Information (which is the amount of Financial Aid you have been awarded, if any)
• Also check under “My Overall Status of Financial Aid” to see if there are any Unsatisfied Tracking Requirements. If you have any Unsatisfied Tracking Requirements, please make sure to submit all documents to the Financial Aid Office.
• You will be notified of your Financial Aid award 2-3 weeks via email after your file is complete

All financial aid funds are disbursed on scheduled dates each term. Federal grant aid (Pell Grant, Supplemental Educational Opportunity Grant) disburses twice each term with 50% of the scheduled award being disbursed on or after each scheduled date based on the student’s enrollment level and program eligibility. Federal Direct Loans are also disbursed in two payments based on the approved loan period. Cal Grant Full-Time Incentive, Community College Completion Grant funds are disbursed in a single payment each term on the first scheduled disbursement date of the semester.

During the enrollment process, students can choose from a few preferred methods for receiving financial aid or scholarship funds from the College. Please visit skylinecollege.edu/financialaid/disbursement for complete details and sign up.

Return of Federal Funds
When a Student Withdraws:
Students who receive federal financial aid and do not attend any classes or who withdraw from all classes prior to completing more than 60% of the semester will be required to repay all or part of any unearned funding that was paid to them. A student’s withdrawal date, for purposes of federal financial aid, will be determined as follows:

1. The date the student officially notified the Admissions Office of his or her intent to withdraw, or
2. The midpoint of the semester for a student who leaves without notifying the college, or
3. The student’s last date of attendance at a documented, academically-related activity.

Students will be billed for any funds that are required to be repaid. Funds must be repaid immediately or the student may be reported to the U.S. Department of Education for a grant overpayment.

General Degree Requirements

Associate In Arts Degree & Associate In Science Degree

The awarding of an Associate Degree is intended to represent more than an accumulation of units. It is to symbolize a successful attempt on the part of the College to lead students through patterns of learning experiences designed to develop individual capabilities and insights.

Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in some field of knowledge to contribute to lifetime interest.

Central to an Associate Degree, General Education is designed to introduce students to the variety of means through which people comprehend the modern world. It reflects the conviction of colleges that those who receive their degrees must possess in common certain basic principles, concepts and methodologies both unique to and shared by the various disciplines. College educated persons must be able to use this knowledge when evaluating and appreciating the physical environment, the culture and the society in which they live. Most importantly, General Education should lead to better self-understanding.

Graduation from Skyline College with the Associate in Arts or Associate in Science degree requires the completion of at least 60 units, including requirements A through F as outlined on the following pages. Substitutions and waivers for degree requirements may be authorized by petition to the appropriate Division Dean. An application for the degree must be filed in the Office of Admissions and Records within the last two semesters of attendance (refer to calendar for the college year for deadline dates).

Philosophy Of General Education

The General Education Program at Skyline College provides a scope and depth of learning that empowers students to meet the work, life, and global citizenship challenges of the 21st century. The Program fosters and develops the essential knowledge, skills, and values students need to succeed in an interdependent world of daunting complexity and relentless change. It is the foundation of life-long learning. Students gain broad knowledge of science, cultures and society; a wide range of high-level intellectual and practical skills; a strong sense of ethical and social responsibility; and the ability to integrate and apply the knowledge, skills, and values acquired in general education to new settings and complex problems and challenges. The General Education Program values and prioritizes broad, diverse perspectives, cross-disciplinary learning, intellectual curiosity, critical and creative inquiry, and the importance of engaging big questions, both contemporary and enduring.

Graduation Requirements

Student Catalog Rights

Graduation requirements are listed in the Catalog. Each Catalog covers an academic year that reflects enrollment beginning with the fall term and includes subsequent spring and summer terms. Having "catalog rights" means students are held to the graduation requirements listed in the catalog at the time enrollment begins. Students may choose to use catalog rights for any subsequent year of continuous enrollment. For Cañada College, College of San Mateo and Skyline College, catalog rights apply to enrollment in any of the San Mateo County Community College District colleges.

For the purpose of this policy, "continuous enrollment" means attending at least one term (fall, spring, summer) each academic year. Attendance is required through the fourth week of instruction for semester length classes or thirty percent (30%) of summer classes and semester classes that are shorter than the full semester.

Catalog rights gained at a college outside of the San Mateo County Community College District are not applicable at Cañada College, College of San Mateo or Skyline College.

Catalog rights cannot supersede any State or Federal regulation or requirement in effect at the time of graduation.

Requirements For The Associate In Arts For Transfer (AA-T) Or Associates In Science For Transfer AS-T

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.
Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Skyline College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please visit the Transfer Center website. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

Requirements for the Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T)

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer”, a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in an “AA-T” or “AS-T” major as detailed in the Degrees/ Certificates section of the catalog. All courses in the major must be completed with a grade of C or better. A “P” (Pass) grade is not an acceptable grade for courses in the major.
4. Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth) OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Note: Per state legislation, students pursuing AA/AS-Ts are only required to meet the major, CSU GE or IGETC/CSU, and a minimum of 60 CSU transferable requirements. No additional requirements are needed.

Students transferring to a CSU campus that accepts the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Bachelor’s in Science in Respiratory Care

The bachelor’s degree program includes a focused area of study in Respiratory Care and a general education pattern designed to provide the knowledge, skills, experiences, and perspectives that will enable graduates to contribute meaningfully in their personal and professional communities applying greater levels of critical thinking and analytical skills. The curriculum provides advanced scope of practice education with emphasis in advanced cardiopulmonary pathophysiology, advanced respiratory care management, advanced respiratory neonatal/pediatrics, health education in respiratory care, research methodology, quantitative principles, respiratory care sleep medicine, and respiratory care leadership and management.

To qualify a student must have completed respiratory care lower division coursework from a CoARC accredited program. Graduation from Skyline College with a Bachelor’s in Science in Respiratory Care requires a minimum of 128-130 units. This includes 40 units of upper division coursework, 51 units of lower division major coursework, and 37 UC (IGETC) or 39 CSU and Title 5 general education units. The bachelor’s degree need not align with other UC or CSU local area graduation requirements.

A minimum of 50 percent of the upper division units required for the major, including 9 units of the upper division general education, must be completed at Skyline College for a bachelor’s degree.

See the Bachelor’s in Science in Respiratory Care degree for further requirements.

Transfer Of Credit And Graduation And/ Or Certificate Program Requirements

For students who transfer among the district’s colleges or other colleges or universities outside the district.

For more information, please visit the Transfer Center website at http://skylinecollege.edu/transfercenter/index.php.

The San Mateo County Community College District Board of Trustees has adopted Board Policy 6.26, which provides for reciprocity of course credit among the District’s three colleges for purposes of meeting graduation requirements.

1. Students may transfer from one College within the District to another without penalty, although...
differences in curriculum offerings among the Colleges may exist.

2. Individual courses students have taken at a particular College within the District that satisfy an area in the general education pattern, elective, statutory, and/or specific area requirements at one District College shall be accepted by the other District Colleges as satisfying those same requirements.

3. Students who have completed an entire General Education pattern, electives, residency, competency, statutory and specific area requirements, at one District College shall be determined to have completely fulfilled all area requirements for graduation or certificate programs at any of the District Colleges. Upon transferring to another District College, students shall be required to complete only those courses applicable toward their major for the Associate Degree or Certificate Program.

Students who have completed the majority of their course work at a college outside the District must complete a minimum of 12 units and a minimum of 50% of the total units required for the major at one or more the District Colleges in order to be recommended for graduation with the Associate Degree or completion of a Certificate Program.

Certificate Requirements

Fifty (50) percent of the total units required for the Certificate must be completed at Skyline College. Units earned to meet certificate requirements may be applied toward the 60 units required for an AA or AS degree and may also satisfy the major requirement for an Associate's Degree.

Changes In State Regulations Governing Community Colleges

The state of California has legislated a series of reforms designed to strengthen the community colleges. One of these reforms was a comprehensive review of standards for instruction in each course and classification of each course as applicable to the Associate Degree. Classes that do not count as units for the Associate Degree are noted in the college catalog following the course description. A course that does not count as units will have the following statement at the end of the course description: (Units do not count toward the Associate Degree.)

**Associate Degree And Certificate Programs**

Following are courses of study leading to majors in AA or AS degrees, AA-T or AS-T degrees, and certificate programs. Not all courses in all majors are offered each semester. Many courses listed in these programs will transfer to four-year colleges or universities in satisfaction of lower division requirements; however, an Associate degree does not necessarily complete all lower division requirements for transfer. For specific courses students should confer with their counselors or contact the college to which they intend to transfer.

**Certificates**

Skyline College offers three types of certificates. A Certificate of Achievement (generally 8 to 30 units) is awarded in certain occupational fields upon satisfactory completion of a specific course of study in a state-approved program. Students must complete with a grade of “C” or better (or Pass) all courses used to satisfy both core and elective requirements for the certificate. Certificates of Achievement are posted to a student’s transcript. A Certificate of Specialization (generally 8 to 15.5 units) is awarded in certain occupational fields upon satisfactory completion (minimum 2.0 grade point average) of a specific course of study in a locally-approved program. Certificates of Specialization are not posted to a student's transcript. A Skills or Career Certificate (generally fewer than 8 units) is awarded upon successful completion of designated courses in a specific occupational field. Skills and Career Certificates are not posted to a student's transcript.

Units earned to meet certificate requirements may be applied toward the 60 units required for an AA or AS degree and may also satisfy the major requirement for an Associate's Degree. Fifty (50) percent of the total units required for the Certificate must be completed at Skyline College.

Certificate requirements for an individual student shall be those listed in the Skyline College Catalog at the time the student's studies begin. Those requirements may be followed throughout the student's course of study as long as the student remains in continuous enrollment. For the purposes of this requirement, continuous enrollment is defined as enrollment in at least one semester each calendar year. If a break in attendance occurs before the certificate is earned, the certificate requirements shall become those listed in the College Catalog which is current at the time the student's studies are resumed.

A student may earn multiple Certificates from Skyline College. Each Certificate of Achievement will be posted to the student's academic record and the student will receive a Certificate of Achievement, Certificate of Specialization, Skills Certificate or Career Certificate for each certificate earned. Courses used to meet requirements for one certificate may be used to meet requirements for additional certificates.

**Gainful Employment Disclosure Information**

Final regulations published in the Federal Register on October 29, 2010 [75 FR 66665 and FR 66832], by the U.S. Department of Education, require all institutions that participate in the student financial assistance programs authorized under Title IV of the Higher Education Act of 1965, to report certain information about students who enrolled in Title IV-eligible educational programs that lead to gainful employment in a recognized occupation. Skyline College's report on educational programs leading to gainful employment is available at [http://www.skylinecollege.edu/generalinformation/gainfulemployment.php](http://www.skylinecollege.edu/generalinformation/gainfulemployment.php).

Anthropology for Transfer.................................60 units

AA-T Anthropology for Transfer

The Associate in Arts Degree in Anthropology for Transfer is intended for students interested in transferring to a California State University (CSU) campus with a major in Anthropology, or similar major. The Anthropology degree promotes an understanding of the intersection between cultural, archaeological and physical/biological processes. Students are taught to apply fundamental terminology and to analyze research questions and real world problems and issues using anthropological methods.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of “C” or better, or “Pass” if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

AS-T Biology for Transfer

An Associate in Science in Biology for Transfer (AS-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Biology, or similar major. This degree allows students to learn the fundamental principles and practices in Biology in order to create a solid foundation and solid preparation to pursue further study for a variety of scientific disciplines at the baccalaureate level and for some graduate level programs, or to enter a pre-professional or professional program in a health-related field.
Students completing an AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or college/university that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AS-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE-Breadth) for STEM or the Intersegmental General Education Curriculum (IGETC) for STEM pattern.

The CSU GE-Breadth for STEM and IGETC for STEM patterns allow students to defer six (6) units of lower-division GE courses until after transfer. This includes one course each from CSU GE Areas C and D, and one course each from IGETC Areas 3 and 4. Before transfer, these deferred lower-division courses must be replaced with calculus and/or major science courses required by the major. One remaining lower-division GE course in both CSU GE Areas C and D, and IGETC Areas 3 and 4, will be completed after transfer.

Note:

Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

Career Opportunities

Required lower division courses in preparation for upper division work in Biology. Biology allows students to pursue incredibly diverse types of jobs: Research scientist, science writer, pharmaceuticals, teacher, a wildlife biologist, and lab tech. Graduates can apply to med schools, vet schools, law school, or master's in teaching programs.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate understanding of how the major groups of living organisms are related to each other and of their adaptations for survival.
2. Demonstrate understanding of the major concepts in cell biology, and the experimental approaches taken to address them.
3. Write clear and well-argued descriptions of topics in biological sciences, based on the course material and articles.
4. Master laboratory techniques including microscopy, spectrophotometry, gel electrophoresis, and PCR.
5. Design, perform and analyze experiments in biology.
6. Apply principles of math, chemistry and physics to the study of biology.
7. Apply knowledge of biological organisms and principles in advanced courses in order to transfer to four year institutions.

Computer Science for Transfer ........................................ 60 units

---

### AS-T Computer Science for Transfer

The Associate in Science in Computer Science for Transfer degree is intended for students interested in transferring to a California State University (CSU) campus with a major in Computer Science, or similar major. Additionally, the AS-T courses in Computer Science give students foundational experience in principles and practices in Computer Science and Programming that are appropriate preparation for a variety of scientific disciplines.

Students completing an AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AS-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus **MUST** complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

ECONOMICS

AA-T Associate in Arts Degree for Transfer
Economics for Transfer............................................................. 60 units

AA-T Economics for Transfer

The Associate in Arts Degree in Economics for Transfer is intended for students interested in transferring to a California State University (CSU) campus with a major in Economics, or similar major. The degree seeks to expose students to the core principles and concepts in the field of Economics and provides students with an understanding and appreciation of the institutions, government policies, and international factors that impact the U.S. economy. It provides students with the lower division foundations in economics and mathematics necessary to major in economics at a CSU.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of “C” or better, or “Pass” if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete the IGETC (CSU) pattern, which includes completion of an Oral Communication (COMM) course. Oral communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

Career Opportunities
A bachelor’s degree in economics can lead to jobs in business such as management, finance, marketing, consulting, investment banking, and business analyst. There are also government jobs seeking economists at the Federal, state, and local levels. An economics degree can also lead to graduate school in economics as well as professional schools in business and law. International institutions (UN, IMF, World Bank) and nonprofit agencies are also looking for economists.

Program Learning Outcomes
Students completing this program will be able to:
1. Measure and interpret the causes and consequences of business cycle fluctuations and formulate appropriate government policies to stabilize the economy.
2. Compare and contrast the characteristics and outcomes of perfectly and imperfectly competitive markets and formulate appropriate government policies to address imperfect competition and market failures.

A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of “C” or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

AS-T  Environmental Science for Transfer

An Associate in Science in Environmental Science for Transfer (AS-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Environmental Science, or similar major. Additionally, this degree allows students to learn the fundamental principles and practices in Environmental Science in order to create a solid foundation and solid preparation that is appropriate for a variety of scientific disciplines. The program will produce students well prepared to transfer to the California State University system to undertake a study of upper division theoretical and/or applied course work in Environmental Science.

Students completing an AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AS-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable course work;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE-Breadth) for STEM or the Intersegmental General Education Curriculum (IGETC) for STEM pattern.

The CSU GE-Breadth for STEM and IGETC for STEM patterns allow students to defer six (6) units of lower-division GE courses until after transfer. This includes one course each from CSU GE Areas C and D, and one course each from IGETC Areas 3 and 4. Before transfer, these deferred lower-division courses must be replaced with calculus and/or major science courses required by the major. One remaining lower-division GE course in both CSU GE Areas C and D, and IGETC Areas 3 and 4, will be completed after transfer.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

AA-T Geography for Transfer

An Associate in Arts in Geography for Transfer (AA-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Geography, or similar major. The degree gives students an overview of the discipline of Geography, an introduction to the methods geographers use to understand spatial relationships, and the tools to identify how humans impact and shape the world.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of “C” or better, or “Pass” if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.
**Career Opportunities**

A degree in Geography provides many practical opportunities for employment. This broad, interdisciplinary field prepares students for a wide variety of careers related to spatial analysis, including careers in urban planning, community development, emergency management, environmental studies, marketing, transportation management, map making, real estate appraisal, demography, foreign service, library/information science, park interpretation, surveying, and academia. There are also many high tech fields where geographers can find employment. Geographic Information Systems (GIS), global positioning systems (GPS), and remote sensing (analysis of satellite images of the Earth) are all highly employable specialties that are being used every day by more and more people. In a world where information management is becoming a major commodity, people who can understand and use spatial information are in demand. Additionally, analytical and research skills gained through a geography major provide a strong foundation for graduate study in many subjects including law, urban planning, and architecture.

**Program Learning Outcomes**

Students completing this program will be able to:

1. Analyze, synthesize, and apply core geographic principles, concepts, models, and phenomena.
2. Identify examples of human-environmental interaction and assess their past, present, and future impact.

DEGREES & CERTIFICATES

**ECE. 201 and PSYC 201**

**Total Required Major Units: 18**

And required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

**TRANSFER NOTES**

1. All courses listed in the six areas of emphasis options are transferable to either the University of California (UC), the California State University (CSU), or both UC and CSU. Courses that are transferable only to CSU are marked with an asterisk (*).
2. All courses may be applied to the appropriate areas of the CSU General Education Breadth and/or the UC General Education (IGETC) patterns (See Transfer Planning section of this catalog).

**AA Interdisciplinary Studies: Letters and Science**

The Interdisciplinary Studies degree is designed for students who wish to pursue broad areas of knowledge in arts and sciences plus additional knowledge in an “Areas of Emphasis.” This degree is designed for students who wish to explore different disciplines (subject areas) before deciding on a definite major program prior to transferring to a four-year university, or for students who may not be planning to transfer but wish to earn a degree in a particular area of study that interests them.

**Note:** A minimum grade of C is required in all courses applied to any area of emphasis in this major.

Students planning to transfer to a four-year university are cautioned that this degree may not meet all of the lower division requirements for transfer into a particular major; however, through careful educational planning with a counselor, this degree would offer a solid foundation in the transfer process. Students should consult with a counselor for specific information regarding their intended major at their target transfer institution.

**Degree Requirements**

1. Complete Residency, Scholarship, Basic Competency, Specific Area, and General Education requirements for the Skyline College Associate Degree
2. Meet the Specific Area requirements in American History and Institutions, English, Physical Education and Ethnic and Cultural Diversity
3. Complete Skyline General Education Requirements
4. Successfully Complete 18 units in one of the following areas of emphasis

This area of emphasis integrates the study of the world around us by developing analytical skills needed to understand the physical world and the human beings who occupy it, including the artifacts they produce.

**Program Learning Outcomes**

Students completing this program will be able to:

1. Apply scientific concepts and principles to explain physical processes in the world.
2. Demonstrate effective communication through written and oral forms, and through other forms as appropriate.

**JOURNALISM**

The Journalism program seeks to prepare students to enter the workforce in journalism and its related fields (such as public relations and advertising) and to offer opportunities to students making a career switch or needing to meet the changing technological demands of the field. The program also seeks to prepare students to transfer to four-year institutions as journalism majors and to train students to be media-literate members of the community.

Instruction is supplemented by hands-on experience working for the student newspaper, The Skyline View, and its online and social media accounts. Students in the program publish Viewpoint magazine in the spring. Students also attend local and regional conferences and have opportunities to pursue internships and jobs in the field.

KINESIOLOGY

AA-T Associate in Arts Degree for Transfer

Kinesiology for Transfer.................................................60 units

AA-T Kinesiology for Transfer

An Associate in Arts in Kinesiology for Transfer (AA-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Kinesiology, or similar major. Course topics include basic human anatomy and physiology, the field of kinesiology and its sub-disciplines, socio-cultural and historical influences and impacts of kinesiology, athletic injury care, and nutrition. Courses offered are transferable as lower division coursework toward a bachelor’s degree in Kinesiology. Upon completion of the degree, students will have a solid foundation of knowledge upon which to build in their selected sub-discipline of Kinesiology.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of “C” or better, or “Pass” if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of “C” or better. A “P” (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

Career Opportunities

The Associate in Arts in Kinesiology for Transfer degree prepares students for careers in fitness and health-related fields such as: Athletic Training; Nursing/Medicine; Teaching/Coaching (K-12, Community College, University, Professional); Adaptive Physical Education; Massage Therapy; Occupational Therapy; Recreational Therapy; Sports Psychology; Sports Information; Sports Marketing; Youth Sports Camp/Sports Program Management; Fitness Center Management; Personal Training; and Physical Therapy

Program Learning Outcomes

Students completing this program will be able to:

1. Critically analyze anatomical and physiological factors in the development of exercise prescription, prevention and rehabilitation designed to meet individual goals and circumstances.
2. Identify career and / or educational options in Kinesiology and formulate an action plan to successfully pursue and attain those options.
3. Describe the historical, social and psychological aspects of activity and sport in the context of society.
4. Demonstrate competence, through participation in distinct areas of activity, in the skills and principles of the activity and its relation to personal, social, intellectual and emotional development.

AS-T Mathematics for Transfer

An Associate in Science in Mathematics for Transfer (AS-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Mathematics, or similar major. This program teaches students to appropriately choose and correctly apply various mathematical concepts and techniques; use the multiple representations of graphs, tables, symbols, and words to communicate effectively; and create mathematical models or hypothesis tests for real-world datasets and evaluate their implications for society.

Students completing an AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AS-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

**AA Music**

The Associate of Arts Degree in Music provides technical and artistic foundations to students interested in pursuing careers in music and music-related fields. In addition to basic courses in reading and writing music, students gain beginning performance skills through class instruction on an instrument (or voice) and as part of a music ensemble. Studies in the aesthetic and historical traditions of various music cultures provide students with an introductory knowledge of the roles and functions of music in society. This degree can also serve as the preparation for additional music studies or degrees (such as the AA-T in Music) for students wishing to transfer to a baccalaureate degree program as a music major.

---

**Career Opportunities**

Possible eventual careers may include music performer, music composer or arranger, music conductor or director, music educator or researcher, arts administrator (for schools, performing organizations, or media outlets), music journalist, musician manager or promoter, music event manager or producer, music retailer, live audio or recorded music producer or technician, DJ, music copyist or engraver, music publisher, instrument builder or tuner, and music law specialist (such as entertainment or copyright lawyer and music licensing consultant).

**Program Learning Outcomes**

Students completing this program will be able to:

1. Demonstrate technical fluency, artistic growth, and personal enrichment in musical performance on a given instrument and/or voice in a solo and/or ensemble context along with an introductory keyboard proficiency.
2. Analyze and interpret common elements and underlying structures of Western music and use these components to compose music, sight-read music, and/or notate music upon listening.
3. Distinguish a range of music cultures through recognition of the scope, variety, structure, and form of musical works from these cultures, awareness of historical and social contexts of these cultures, and ability to respond critically to musical works in these cultures by articulating an informed personal reaction.

* MUS. 100 may only be taken as an elective if MUS. 107 was selected as the Required Core Course.

Total Required Major Units: 27 - 28

And required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

AA-T Music for Transfer

The Associate of Arts Degree in Music for Transfer prepares students to demonstrate transfer-level proficiency in solo and ensemble performance skills as well as music theory and musicianship skills for a seamless transfer into a baccalaureate degree program as a music major. This degree is recommended for students pursuing careers in music and music-related fields. Completion of this curriculum will demonstrate commitment to the serious study of music in practice and in theory, and provide comprehensive preparation for upper-division work.

An Associate in Arts in Music for Transfer (AA-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Music, or similar major. Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

Career Opportunities

Possible eventual careers may include music performer, music composer or arranger, music conductor or director, music educator or researcher, arts administrator (for music schools, performing organizations, or media outlets), music journalist, musician manager or promoter, music event manager or producer, music retailer, live audio or recorded music producer or technician, DJ, music copyist or engraver, music publisher, instrument builder or tuner, and music law specialist (such as entertainment or copyright lawyer and music licensing consultant).

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate technical fluency, artistic growth, and personal enrichment in musical performance on a given instrument and/or voice in a solo and/or ensemble context along with an introductory keyboard proficiency.
2. Analyze and interpret common elements and underlying structures of Western music and use these components to compose music, sight-read music, and/or notate music upon listening.
3. Distinguish a range of music cultures through recognition of the scope, variety, structure, and form of musical works from these cultures, awareness of historical and social contexts of these cultures, and ability to respond critically to musical works in these cultures by articulating an informed personal reaction.
The Skyline College Associate in Arts in Music for Transfer is designed to facilitate successful transfer to baccalaureate music degree programs at a CSU. This degree provides students with the lower division coursework to transfer to a B.A. or B.M. in music.

#### AA-T Philosophy for Transfer

An Associate in Arts in Philosophy for Transfer (AA-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Philosophy, or similar major. Philosophy degrees are often preparation for post-graduate studies in Philosophy, Law, and other disciplines. The study of Philosophy develops a well-rounded appreciation of the history of ideas and the rich tapestry of intellectual traditions from various cultures, and it provides excellent training in argument analysis and critical thinking.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no
more than 60 units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

**Career Opportunities**

Students who graduate with B.A. degrees in Philosophy typically go on to enroll in Masters/PhD programs in Philosophy or other academic programs. It is not uncommon for Philosophy majors to transfer to a Law school. Common pathways lead to careers in education, law, information technology, technical writing, marketing, and journalism.

**Program Learning Outcomes**

Students completing this program will be able to:

1. Demonstrate familiarity with the history of philosophical thought and contemporary currents in the discipline.
2. Assess influential claims and theories in the philosophical tradition using rigorous methods of critical thinking and logic.

**AS-T** Physics for Transfer

An Associate in Science in Physics for Transfer (AS-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Physics, or similar major. The program is designed to teach students analytical skills, mathematical techniques and knowledge of physics in both the theoretical and experimental domains, as appropriate to prepare students for subsequent upper division course work in the same or similar arenas. The theoretical foundation is laid for mechanics, oscillations and waves, thermodynamics, electricity and magnetism, optics and modern physics. In laboratory, students are introduced to various measurement techniques and instruments including computerized data collection, and learn to model data and interpret it statistically to produce appropriate conclusions about the natural world. The program will produce students well prepared to transfer to the California State University (CSU) system to undertake a study of upper division theoretical and/or experimental course work in Physics.

Students completing an AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AS-T will be required to complete no
more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AS-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Up to (6) major course units may be double counted to apply to meet general education requirements. This degree does not require the Skyline College Associate Degree requirements.

Elective courses: If applicable, additional courses to meet the minimum 60 CSU transferable units requirement. Please refer to Associate Degree for Transfer (ADT) Requirements for more information.

- Intersegmental General Education Transfer Curriculum (IGETC) pattern.

### Program Learning Outcomes

Students completing this program will be able to:

1. Draw on both conceptual understanding and (as appropriate to course level) mathematical techniques to find exact solutions to real-world physical phenomena
2. Understand the scientific method and principle laws of physics, to sufficiently apply them in their future careers.
3. (as applicable) Conduct lab experiments to measure the physical behavior of the real world, and correctly interpret the conceptual and statistical implications of the experimental data.

### Political Science

**AA-T Associate in Arts Degree for Transfer**

Political Science for Transfer..................................................60 units
The Associate in Arts Degree in Political Science for Transfer is intended for students interested in transferring to a California State University (CSU) campus with a major in Political Science, or similar major. The discipline of Political Science gives an all-around education for understanding the foundation and practice of political systems. The intent of our degree is to provide students with a seamless transition from Skyline College to a CSU campus. By completing the requirements for the AA-T in Political Science, students will have met the lower-division general education required for admissions to a CSU campus, as well as the lower-division major requirements required by most CSU's.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of "C" or better, or "Pass" if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:
1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete the IGETC (CSU) pattern, which includes completion of an Oral Communication (COMM) course. Oral communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

Career Opportunities
A bachelor's degree in political science can lead to exciting careers in federal, state and local governments; law; business; international organizations; nonprofit associations and organizations; campaign management and polling; journalism; precollegiate education; electoral politics; research, university and college teaching. Political science majors gain analytical skills, administrative competence and communication abilities that are valued in a wide spectrum of potential career areas. Program Learning Outcomes
Students completing this program will be able to:
1. Demonstrate an understanding of comparative political systems, especially as they relate to cultural components and socio-economic environments.
2. Analyze and articulate the key approaches to the study of the relationship between nations as it pertains to their military, economic, and diplomatic relations.
3. Critically evaluate and be familiar with the nature and process of theorizing in political science and be able to distinguish and categorize different types of methodology and theory utilized in the study of political science.
4. Demonstrate an understanding of the principles and values that constitute the underpinnings of the American political institutions as they have evolved throughout history.

Respiratory Care.......................................................... 60 units

**BS Respiratory Care**

The Bachelor’s in Science in Respiratory Care program allows graduates of AS degree Respiratory Care programs and licensed Respiratory Care Practitioners (RCP) a pathway to complete their four-year degree without having to transfer to a four-year college or university. The curriculum provides advanced scope of practice education with emphasis in advanced cardiopulmonary pathophysiology, advanced respiratory case management, advanced respiratory neonatal/pediatrics, health education in respiratory care, research methodology, quantitative principles, respiratory care sleep medicine, and respiratory care leadership and management. Increasingly, Respiratory Care Practitioners hold responsibilities formerly conducted by physicians requiring a greater level of critical thinking and analytical skills.

A minimum of 28 units of upper division major course work builds upon the lower division major course work. The degree also includes a minimum of 12 units of upper division general education courses in alignment with California State University and University of California guidelines. Students will complete coursework through a capstone project developed in collaboration with faculty and community members that is aligned with student area of interest.

The cost of tuition is $130 per unit for upper division coursework, much less than at a four-year institution.

**ADMISSION PROCEDURES AND REQUIREMENTS**

Admission to the Bachelor’s in Science in Respiratory Care is by special application and can be found on the college website: http://skylinecollege.edu/respiratorycarebachelors/. Students are admitted into the program once a year, in the Fall semester. Approximately 40 students are admitted to the program per cohort.

To qualify students must:

• Complete lower division Respiratory Care coursework from a CoARC accredited program.
• Complete a minimum of 30 CSU GE Breadth or IGETC (CSU or UC) lower division GE units from a regionally accredited program.
• Be licensed or licensure eligible.
• Students may transfer up to 90 units of lower division coursework and enter the program in junior status.

Selection procedures: (based on criteria approved by the Skyline College Administration and consistent with state regulations)

• Forty (40) applicants will be accepted each year to create the cohort.
• If more applicants are received than space allows, a lottery system will be set up and a waiting list of fifteen (15) students will be formed.

Priority will be granted to:

• Students who are enrolled in the A.S. Respiratory Care program at Skyline College and intend to continue to B.S. Respiratory Care Program, and have completed 30 CSU GE Breadth or IGETC (CSU or UC) lower division GE units.

Remaining seats will be granted to the following applicants:

• New graduates from other programs who have completed an accredited Respiratory Care Program equivalent to an A.S. in Respiratory Care, are California licensure eligible, and have completed 30 CSU GE Breadth or IGETC (CSU or UC) lower division GE units. and submitted all application materials.
• Respiratory Care Practitioners who have completed an accredited Respiratory Care Program equivalent to an A.S. in Respiratory Care, are California licensure eligible, have completed and submitted all application materials, and have completed 30 CSU GE Breadth or IGETC (CSU or UC) lower division GE units.

For further information, please visit the program website or contact Elyane Rodriguez, Director of Respiratory Care and Allied Health at (650) 738-4457 or rodriguezr@smccd.edu.

Career Opportunities
Completion of this degree will provide advancement opportunities in positions such as advanced level practitioner, researcher, case manager, supervisor, manager, director, and/or educator.

Program Learning Outcomes
Students completing this program will be able to:

1. Apply knowledge of advanced Respiratory Care concepts and functions in an integrated approach
2. Draw on multiple sources of analysis, research, and critical thinking to address a problem and construct an applicable project focused in Respiratory Care

AA-T Spanish for Transfer

An Associate in Arts in Spanish for Transfer (AA-T) from Skyline College is intended for students who are interested in transferring to a California State University (CSU) campus with a major in Spanish, or similar major, or to enter the workforce. The Spanish for Transfer (AA-T) is designed to facilitate the successful transfer to baccalaureate Spanish degree programs within the CSU system and will provide students with the lower division breadth and depth in the field. The program is designed to strengthen and develop skills in critical reading, writing, thinking and research through the study of language, literature, writing, culture and related disciplines. The program will produce competent and confident readers and writers, well-equipped to transfer to the California State University.

Students completing an AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that accepts the AA-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or university or a college that is not part of the CSU system. Students should consult with a Skyline College counselor for further information on university admissions and transfer requirements. A grade of “C” or better, or “Pass” if the course is taken on a Pass/No Pass basis, is required for each course applied to the major. Major course requirements may also be applied to meet general education requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;
2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. All courses in the major must be completed with a grade of “C” or better. A “P” (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis. Students should consult with their counselor before enrolling in a major course on a Pass/No Pass basis, as some CSUs may have limitations on which major courses can be taken on a Pass/No Pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Advising Note: Students planning to transfer to a CSU (California State University) campus MUST complete an Oral Communication (COMM) course (CSU Minimum Admissions Requirement). Oral Communication courses are noted in the following GE areas: CSU GE (Area A1) or IGETC (Area 1A).

Note: Students do not need to complete the Skyline College Associate Degree requirements. For further information, please consult a Skyline College counselor.

Career Opportunities
The degree is intended for Transfer to a Baccalaureate Program and it helps students to be placed in higher paid sales in different jobs in different fields.

Program Learning Outcomes
Students completing this program will be able to:

1. Identify and describe language structure and functions of the main components of the linguistic system of the four basic skills: reading, writing, speaking and listening comprehension.

Educational Opportunities at other San Mateo County Community Colleges

Skyline College is part of the San Mateo County Community College District, which also operates Cañada College in Redwood City and College of San Mateo. In addition to offering comprehensive general education, vocational, transfer, and remedial programs, Cañada College and College of San Mateo each have a number of special programs not available at Skyline College that can be found within their respective catalogs. Please visit the online catalogs for both Cañada College (catalog.canadacollege.edu/) and College of San Mateo (catalog.collegeofsanmateo.edu/) for additional information.
Transfer Planning

Skyline College can help students plan an educational program which will prepare them to transfer to the University of California, California State University, or to a private college or university to earn a bachelor's degree. Students are encouraged to meet regularly with a Skyline College counselor and use the resources of Skyline College's Transfer Center to develop an educational plan which will assure a smooth transition to the transfer institution of their choice. While completing transfer requirements, students may also want to earn units toward an Associate Degree in Arts or Science or an Associate of Science Degree for Transfer (ADT) at Skyline College. With careful planning, both objectives can be reached by taking essentially the same set of transferable courses.

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example C-ID/COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID/COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information. Courses at Skyline College with approved C-ID numbers are noted below.

### Transfer of Credit

Students planning to transfer can complete their freshman and sophomore level (lower-division) transfer classes at Skyline College and transfer to a baccalaureate institution with junior (upper-division) standing. Students must complete a minimum of 60 transferable semester units in order to transfer as juniors. Typically, students must complete units that apply to an approved general education pattern and lower division major preparation as transfer preparation.

### Associate Degree for Transfer (ADTs) Can Benefit Students Intending to Transfer to the CSU System

Skyline College offers associate degrees (AA-T and AS-T) designed to support transfer to the California State University system. Students who complete the requirements for an Associate Degree for Transfer are eligible to apply for an associate degree AND meet minimum admissions requirements for transfer with junior standing to a California State University. Although earning an Associate Degree for Transfer does not guarantee a student admission to all California State University campuses or majors, it does secure a student priority admission consideration to his/her local CSU campus. To enhance a student's competitiveness and success as a CSU applicant, in addition to completing the requirements for the associate degree for transfer, it is strongly recommended that students meet with their Skyline College counselor and utilize [www.assist.org](http://www.assist.org) to see if there are additional courses suggested or required for a particular major at a specific campus.

At the time of printing this catalog, Skyline College offers associate degrees for transfer in nineteen majors: Administration of Justice, Anthropology, Art History, Biology, Business Administration, Communications, Early Childhood Education, Elementary Teacher Education, English, Geology, History, Journalism, Kinesiology, Physics, Psychology, Sociology, and Spanish.

Skyline College Transfer Center

Skyline College’s Transfer Center provides information and offers workshops on choosing a college, transfer admission requirements, completing transfer admission application forms and writing the application essay. Transfer Center staff can provide details about special Transfer Admission Guarantees that Skyline College has developed with a number of four-year UC and private institutions which can guarantee student’s transfer admission.

Students with a clear transfer objective stand the best chance of meeting requirements in a timely manner. They can make the best use of their time and course work by deciding on a transfer institution and major as soon as possible. Students unable to make these decisions when they enter Skyline College may follow a general transfer pattern of courses while taking advantage of the Counseling Division and Transfer Center resources in making transfer plans.

Once students choose a major and the university to which they plan to transfer, they should use www.assist.org, an online student transfer information system, to see how courses completed at Skyline College are applied when transferring to a university. This website also lists courses required for majors. Skyline College counselors and the Transfer Center staff can assist students in planning for transfer, and four-year university representatives often visit Skyline College to meet with students interested in transferring to their institutions. It is wise for students to consult the catalog of the university to which they plan to transfer to become familiar with specific transfer admission requirements. Many college and university catalogs are available for reference both in the Transfer Center and online. Students may also write directly to the admissions office of the institution to obtain an information bulletin which outlines requirements for admission as a transfer student.

The Transfer Center is located with the Counseling Center in Building 2, Room 2227.

Requirements for Transfer Students

A student can transfer from Skyline College to a four-year college or university as a junior without loss of time or credits by completing the following:

1. Lower Division Preparation for the Major
   • These courses provide the necessary background to prepare the transfer student to enter the major as a junior. Students can access www.assist.org for lower-division major requirements for the California State University (CSU) and University of California (UC) colleges.

2. General Education Requirements (Sometimes called “Breadth Requirements”)
   • These are the courses required to obtain bachelor’s degree regardless of major. Courses in writing, critical thinking, sciences, humanities and social sciences are included in general education.

3. Electives
   • Upon completion of major and general education requirements, elective courses can be taken to bring the total number of transferable units to the required 60 units for transfer to UC and CSU.

Certification of Completion of General Education

Prior to transfer, students transferring to a CSU or UC system may request verification of completion of the lower division general education requirements. To accomplish this, students must request the Admissions and Records Office (the request can be made on WebSMART) to send a CSU GE or IGETC Certification with the final transcript to the transfer institution. Certification requests are made online via WebSMART. This certification is used by the transfer destination, in addition to the official transcripts, to confirm full or partial completion of CSU GE or IGETC requirements. Students who transfer without CSU GE or IGETC Certification will be required to meet the general education requirements of the specific CSU or UC campus (local requirements) to which they transfer. Meeting these local general education requirements requires taking additional general education courses after transfer.

Transfer Admission Procedures

Students should take the following steps to apply for admission as a transfer student to a four-year college or university:

1. Meet with your Skyline College counselor early, and throughout, your education to develop a Student
Educational Plan (SEP). The SEP will provide you with a clear pathway for transfer.

2. Submit an admissions application to your intended transfer institution approximately one year in advance of planned transfer. Applications for the University of California and the California State University are available online at the following web sites:
   - UC applications: admission.universityofcalifornia.edu/
   - CSU applications: www.csumentor.edu

3. Submit completed application during the specified filing period. Students are discouraged from sending them early as they will not be accepted before the initial filing date.

4. If an entrance exam (SAT, ACT) is required for transfer admission, register for the exam at least six months in advance of transfer.

5. Submit a request to the Skyline College Office of Admissions and Records to have a transcript of your academic record sent to the transfer institution at the time(s) specified by that institution. Transcripts must be requested well in advance of the date required. Four-year colleges and universities will also require transcripts of work completed at ALL educational institutions.

6. After admitted to a CSU or UC campus, request a CSU GE or IGETC certification to be sent with your final transcript.

Transcript Evaluation and Course Substitution Service

Students are strongly advised to use the transcript evaluation service to determine how course work from other colleges/universities can be incorporated into their transfer planning. The Transcript Evaluation Service is available to students who are currently registered in 6 or more units in the San Mateo Community College District. A transcript evaluation provides important information to the student and counselor about how course work completed at other colleges and universities will be applied to the following Skyline College educational goals.

1. California State University General Education Certification – CSU GE
2. Intersegmental General Education Transfer Curriculum – IGETC Certification
3. Skyline College Associate Degree General Education requirements
4. Skyline College Major or Certificate requirements.

Detailed instructions for students on how to use this service can be found at http://smccd.edu/transeval.

California State University

The California State University offers instruction to undergraduate and master's degree students in the liberal arts and sciences, applied fields, and professions, including teaching. Nearly 1,500 degree programs in 240 subject areas are offered. CSU assigns high priority to California community college transfer students who have completed the first two years of their baccalaureate program, including those applying for impacted programs.

The California State University has twenty three campuses: Bakersfield, California Maritime Academy, Channel Islands, Chico, Dominguez Hills, Fresno, Fullerton, East Bay (Hayward), Humboldt, Long Beach, Los Angeles, Monterey Bay, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma and Stanislaus.

University of California

The University of California offers bachelor’s, master’s and doctoral degree programs in a broad array of subject areas. Last year, more than 6,000 students transferred from California's community colleges to the University, and more than one-fifth of UC's bachelor degrees were awarded to students who started out at a community college. The University is encouraging even more community college students to take this step in the coming years.

The University of California has a long-established relationship with Skyline College and has developed several special programs to help community college students with the transfer process. The University's articulation agreements with Skyline College make it possible for prospective transfer students to select appropriate courses. receive priority consideration for transfer admission. The Intersegmental General Education Transfer Curriculum allows prospective transfer students to satisfy the lower division breadth/general education requirements of any UC campus before transferring.

While all of the campuses have similar requirements for undergraduate admission, they differ in size, enrollment, and in academic programs offered. In addition, the campuses vary in styles of campus life, with student populations reflecting a variety of cultures from the United States and abroad. The University of California includes nine general campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz. A tenth campus in San Francisco offers graduate and professional programs in the health sciences.

California Independent Colleges and Universities

There are more than 300 privately supported (or independent) degree-granting colleges and universities in California. Independent institutions enroll about one-quarter of all students attending four-year colleges and universities in California. The most distinctive feature of California's accredited independent colleges and universities is their diversity of character, academic emphasis, and programs.
CSU GE/IGETC

CSU General Education Requirements

Upon completion of the full pattern of courses listed below, Skyline College will certify that a student's lower division general education requirements are completed for any of the 23 campuses within the CSU system (partial certification also available). Certification is not automatic. You may request certification with your final transcript online via WebSMART. For further information, please consult with a Skyline College counselor or the Skyline College Admissions & Records Office.

Attention: This list is a guide to help you in selecting courses and keeping track of your progress. You are strongly encouraged to meet with your counselor to determine which general education pattern is best for you to follow, review your course selections, and complete a Student Education Plan. The general education pattern you select is based on a variety of factors, including your major and the institution to which you plan to transfer.

TO BE ELIGIBLE FOR TRANSFER AS A JUNIOR TO A CSU CAMPUS, YOU MUST:

1. Complete at least 60 CSU transferable units with a "C" average (2.0).
2. Complete at least 30 of the 39 units from the GE courses listed below, including one course from each of the following areas: √ A1, √ A2, √ A3, and √ B4 with grades of "C" or higher. Please be aware that for some campuses and majors, you may not complete Areas A1, A2, A3 and B4 during your last term prior to enrolling at a CSU campus. Please consult with a counselor for specifics.
3. While a course may be listed in more than one area, it may be used to satisfy only ONE subject requirement.
4. While an AP test may be listed in more than one area, it may be used to satisfy only ONE subject requirement.

**U.S. History, U.S. Constitution, California State and Local Government – CSU Graduation Requirement.** Although not a transfer or CSU admissions requirement, the CSU system requires students to complete coursework in U.S. History (US-1), U.S. Government (US-2), California State & Local Government (US-3) as a graduation requirement. The following courses may meet the CSU graduation requirement and may be applied to meet CSU GE Area D or Area C2.

**US-3 State & Local Government – HIST** 240, 310; **PLSC** 301, 200#

**Note:**

#HIST 429 has been approved to meet US-1 only (US History) effective F12

#LEGL 275 has been approved to meet US-2 only (US Government) effective F14

#PLSC 200 meets both US Government (US-2) and State & Local Government (US-3)

**Intersegmental General Education Transfer Curriculum (IGETC)**

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education pattern that fulfills all lower-division general education requirements at all California State University (CSU) and most University of California (UC) campuses/majors. It is also accepted by some private/independent or out of state universities. IGETC is usually recommended for students who intend to transfer to a CSU or UC campus, or who are not yet sure of their intended transfer university. Completion of the IGETC is not a requirement for transfer to the CSU or UC, nor is it the only way to fulfill the
lower division general education requirements. Students transferring to CSU campuses may find it advantageous to follow CSU-GE requirements. Students transferring to UC may also complete campus specific breadth requirements. Please note: IGETC is not recommended and/or acceptable for some colleges and majors within the UC system. Please consult with your counselor.

**Note:**
- IGETC does not guarantee admissions to any CSU or UC campus. Please consult with a counselor regarding limitations or restrictions on the IGETC acceptance.
- All courses for IGETC must be completed with “C” or better grade.
- Courses listed in multiple AREAS shall not be certified in more than one area except for courses in Languages Other Than English (AREA 6 LOTE), which can be certified in both AREAS 3B and 6.

**LEGEND:**

Limitations On Scheduling Courses

Some courses in this catalog will not be scheduled in 2020-2021. Additional courses may be added. Skyline College reserves the right to discontinue, postpone, or combine classes and to change instructors when circumstances warrant such changes. Further, it reserves the right to cancel classes that do not reach a minimum enrollment.

Unless otherwise designated, any course may be offered either in day or evening. Additionally, some courses are offered online. Specific information concerning class hours and locations will be found in the current Class Schedule.

Course Descriptions Information

Courses on the following pages form the basic offerings at Skyline College. Generally in the following course descriptions, both semesters of a sequential course are listed together if the first semester course is a prerequisite to the second semester course. If there is no entry, the course has no prerequisite. All courses are offered for a letter grade, unless otherwise noted.

The credit value of each course in semester units is indicated by the number in parentheses following the title. A semester unit of credit is based upon one hour of the student's time at the college per week in lecture or recitation throughout one semester, together with the time necessary in preparation, or a longer time in laboratory or other exercises not requiring outside preparation. With a normal schedule of 15 college units, the average student will devote approximately 45 hours per week to class attendance and preparation.

Skyline College reserves the right to make appropriate course and program changes during the course of the year which may not be reflected in this catalog.

Course Numbering And Transferable Credit

The course numbering system in use at Skyline College as part of the San Mateo County Community College District categorizes courses according to the following:

100-599 Courses generally transferable to a four-year college or university.

600-699 Courses varying in content and which are usually transferable.

700-799 Courses that are part of a specific occupational program and which are not generally regarded as transferable.

800-899 Courses that are non-transferable in nature.

Courses accepted by the University of California are indicated at the end of each course description as “UC”. A complete list of transferable courses can be found in the Transfer Planning section.

Courses identified by Skyline College as transferable to California State Universities are indicated at the end of each course description as “CSU.” Courses that fulfill general education requirements show an area letter designation following. All transferable courses that satisfy general education to CSU can be found in the Transfer Planning section.

Because of changing regulations governing the transferability of courses among the segments of higher education in California, students should consult a counselor for current information about specific items. From time to time, a department may offer a course which is experimental in nature, covers a special topic, or which consists of independent study tailored to a student's needs. Because such courses are never exactly the same, you will not find them described in the catalog. They are, however, regular credit courses of the College. Usually they will be described in the Schedule of Classes or in other course advertising and will have a department name followed by one of the following numbers: 670 Vocational Cooperative Education courses (1-4) Vocational Cooperative Education courses are offered under COOP 670 as well as the 670 number in a variety of vocational disciplines. Courses numbered 670 are transferable to CSU. 680 Experimental Courses Courses designed to study a particular area or problem beyond the scope of regularly offered courses. These courses can be offered for a letter grade or for Credit/No Credit.

695 INDEPENDENT STUDY (.5-3) (Pass/No Pass or letter grade.)

Hours/semester: 24 lab hours by arrangement for each .5 unit. Recommended: Eligibility for ENGL 846 or ESOL 400, or equivalent. Designed for students who are interested in furthering their knowledge via self-paced, individualized, directed instruction provided in selected areas to be arranged with instructor and approved by the division dean using the Independent Study Form. Varying modes of instruction can be used — laboratory, research, skill development, etc. For each unit earned, students are required to devote three hours per week throughout the semester. Students may take only one Independent Study course within a given discipline. Transfer credit: CSU. Courses numbered 680 or 695 are generally transferable.
Courses numbered 880 are not transferable. See a counselor for specifics.

Course Repetition

The Board of Trustees of the San Mateo County Community College District has adopted a policy (District Rules and Regulations, Section 6.17.1) in which three types of courses are designated as repeatable:

Intercollegiate Athletics — Courses in which student athletes enroll to participate in an organized sport sponsored by the district or a conditioning course which supports the organized competitive sport may be designated as repeatable. (Title 5 Section 55040/55041)

Intercollegiate Academic or Vocational Competition — Courses that are specifically for participation in non-athletic competitive events between students from different colleges may be designated as repeatable. The course must be tied to the student’s participation in the competition. The event must be sanctioned by a formal collegiate or industry governing body.

Required by CSU or UC for Completion of a Bachelor's Degree — Repetition of the course is required by CSU or UC for completion of the bachelor’s degree. Courses are limited to four attempts and this enrollment limitation applies even if the student receives a substandard grade or a “W.” (Title 5 Section 55041)

These courses will be designated as “may be repeated for credit” in the College Catalog. For more information on this policy, please consult your College counselor. For further information, see Course Repetition under the Academic Standards section of this Catalog.

### Art

Art majors should consult the program outlined in "Degree Programs" for a suggested plan of study.  

Art activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family. A family of courses may contain more than four courses. If there are more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the legislation) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.  

Art activity courses are offered in levels by progression. Courses are listed by title; for example, Black and White Photography, Ceramics, etc, and then by level. Level I is beginning; Level II is intermediate; and Level III is intermediate/advanced.  

New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken a course within a family, must progress to the next level.

Kinesiology
The majority of courses offered by the San Mateo County Community College District are now leveled to show progression from the most fundamental (level 1) to the most advanced (level 4). Course levels can be identified by a .1, .2, .3, or .4 system or by the course title. Course levels may be scheduled simultaneously. Students are advised to enroll initially at the fundamental level (.1) regardless of previous experience and be placed at the appropriate level based on instructor assessment. Adapted Physical Education and intercollegiate sport related courses are not affected by the repeatability legislation. Kinesiology and Dance activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family listed below. If there is more than one course in a particular family, a student may only enroll in a maximum of four total courses within that family. After four courses within a family have been taken, a student has the option to audit should they wish to continue enrolling in courses within that family. Students who audit do not count toward meeting local minimum enrollment requirements. Thus, a class may be cancelled if enough credit seeking students are not enrolled no matter how many students wish to audit. For information about how to audit, students should refer to the audit policy in the catalog. A course previously taken by a student, prior to course leveling within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four combined. This limitation on enrollment applies to all coursework attempted by the student. For a list of “Families Across the District,” see the Academic Standards section of this catalog. Students not having previously taken a Kinesiology or Dance activity course may
have the opportunity to enroll in courses within a particular family for a maximum of four times.

Music

The courses of the Music Department are specifically designed to fill the needs of the beginner in music, those who are seeking a career in the music business, those who are preparing to transfer to a university, those who want to teach music, and those who simply want to enhance their musical enjoyment.

Students may be asked to audition or test for placement in sequential courses.

Music activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family. A family of courses may contain more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the legislation) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.

Music activity courses are offered in levels by progression. Courses are listed by title; for example, Piano, Guitar, etc., and then by level. Level I is beginning; Level II is intermediate; Level III is intermediate/advanced; and Level IV is advanced. The course number also indicates the level. For example, a beginning Piano class would be listed as MUS. 301.1, Piano I while an advanced Piano class would be MUS. 301.4, Piano IV.

New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken a course within a family, must progress to the next level.
